HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Java Spring Boot** microservices for core platform features, implementing robust **REST APIs** and handling approximately 5,000 requests per minute.
- Engineered **Hibernate** and **JPA** persistence layers for enterprise applications, optimizing complex relational database queries across **PostgreSQL** and **MySQL** to improve data retrieval efficiency by **18%**.
- Implemented comprehensive **JUnit** and **Mockito** test suites for Java applications, increasing code coverage by **30%** and reducing post-deployment defects.
- Collaborated with product managers and business stakeholders to gather requirements and translate them into detailed technical specifications for new software features, participating in sprint planning and estimation for an 8-person team.
- Conducted thorough **code reviews** for team members, providing constructive feedback to uphold technical excellence and adherence to **Clean Architecture** principles.
- Mentored junior engineers on software development best practices, including debugging techniques and effective use of **Git** branching strategies and CI/CD pipelines.
- Containerised backend services using **Docker** and deployed them to a **Kubernetes** cluster on **AWS**, configuring basic resource limits and monitoring.

SKILLS

Languages – Java, Python, SQL, R, TypeScript, Golang

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, FastAPI, Flask

Databases – PostgreSQL, MySQL, Oracle, MySQL

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, GCS

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio, GitHub CI/CD

Concepts – REST APIs, Microservices, Clean Code, Clean Architecture, Agile, Scrum, ETL, Data Analysis, Machine Learning Fundamentals

PROJECTS

Enterprise Java Application Modernization

- Refactored a monolithic Java application into a set of microservices using **Spring Boot** and **Hibernate**, improving system modularity and maintainability.
- Developed **REST APIs** for inter-service communication and external integrations, ensuring consistent data exchange across the platform.
- Implemented a new **PostgreSQL** schema and optimized SQL queries, reducing average response times for critical data retrieval operations by **22%**.

Automated Reporting and Data Pipeline

- Built automated data pipelines using **Python** and **pandas** to extract, transform, and load data from multiple sources into a data warehouse.
- Developed scheduled reporting scripts that generated daily operational summaries, delivering insights to business stakeholders.
- Containerised the Python application using **Docker** for consistent deployment across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
