HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core platform services, handling approximately **4,000 requests per minute** during peak hours.
- Designed and implemented **Hibernate** ORM mappings for complex relational data models, ensuring data integrity across critical enterprise systems and reducing query complexity by **30%**.
- Engineered **JUnit** and **Mockito** test suites for critical Java modules, increasing code coverage by **15%** and identifying over **50 critical bugs** prior to production.
- Contributed to the design and implementation of the **Delta platform's** agentic backend, focusing on concurrency challenges and distributed systems principles.
- Participated in **code reviews** and sprint planning sessions, providing technical estimations and ensuring adherence to architectural guidelines for new feature development.
- Containerized backend services using **Docker** and deployed to a managed Kubernetes environment, enabling consistent development and production deployments.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace** for log analysis and performance monitoring, resolving P1/P2 issues within SLA targets.

SKILLS

Languages – Java, Python, SQL, R, TypeScript

Frameworks/Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, FastAPI, Flask

Databases – PostgreSQL, MySQL, Oracle

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

BI/Analytics – Power BI, Tableau, DAX, Power Query, RStudio

Methodologies – Agile, Scrum

PROJECTS

Core Platform Backend Services (HCL Technologies)

- Developed a suite of **Java Spring Boot** microservices to manage core platform functionalities, integrating with PostgreSQL via **Hibernate** for data persistence.
- Implemented robust RESTful APIs for inter-service communication, ensuring data consistency and handling asynchronous event processing for approximately **500 transactions per second**.
- Containerized services using **Docker** and managed deployments through **Jenkins** pipelines, improving deployment frequency by **40%**.

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **Java**-based payments operations dashboard by developing new modules for transaction monitoring and reconciliation workflows, processing over **1,500 distinct transaction types**.
- Automated data validation and reporting tasks using **Python** scripts, reducing manual effort for the operations team by an estimated **10 hours per week**.
- Collaborated with business analysts to gather requirements for enhanced alerting mechanisms, directly contributing to a **20% reduction** in incident response times for critical payment failures.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
