PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **data classification** and **sensitivity label policies** within Microsoft Purview, enabling granular data protection for enterprise clients.
- Developed and deployed **Data Loss Prevention (DLP) rules** across Microsoft 365 services, reducing the risk of sensitive data exfiltration for a managed service customer.
- Configured and optimized **Microsoft Purview Information Protection** settings to align with regulatory frameworks such as GDPR, ensuring compliance for client deployments.
- Assisted in the technical design and architecture of Microsoft Purview solutions, focusing on **data governance** principles and integration with the M365 compliance ecosystem.
- Created custom **compliance reporting** and automated workflows using PowerShell scripts to meet specific client requirements for data security posture assessment.
- Served as a technical delivery resource for client-facing projects, providing hands-on deployment and configuration of Microsoft Purview workloads.
- Containerized data classification and policy enforcement utilities using **Docker** and deployed them to an **AWS EC2** environment for streamlined management.

SKILLS

Microsoft Purview – Data Classification, Information Protection, Data Loss Prevention (DLP), Insider Risk Management, Compliance Policies, Sensitivity Labels, Retention Policies

Microsoft 365 Compliance – Purview Center, M365 Compliance Ecosystem, Microsoft Sentinel

Scripting & Automation – PowerShell, Python

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Containerization – Docker

Data Governance – Data Governance Principles

Methodologies – Agile, Scrum

PROJECTS

Enterprise Data Security Policy Deployment

- Architected and deployed comprehensive **data classification** and **sensitivity label policies** for a financial services client, mapping business data types to technical controls.
- Developed automated **PowerShell scripts** to facilitate the bulk application of DLP policies across mailboxes and SharePoint sites, enhancing data loss prevention capabilities.
- Provided post-implementation support and conducted knowledge sharing sessions for the client's IT team on managing and refining Purview configurations.

Customer Compliance Reporting Automation

- Built a Python-based automation script to extract and aggregate compliance data from Microsoft Purview logs for monthly reporting to executive stakeholders.
- Designed and implemented a series of **custom compliance reports** and dashboards within Power BI, visualizing data protection maturity and policy adherence for enterprise customers.
- Integrated with Microsoft 365 APIs to gather necessary audit and event data, ensuring accurate and timely reporting on data security incidents.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
