HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Tested AI-generated process comparisons for medical device manufacturing workflows, ensuring business readiness and accuracy for deployment.
- Validated solution recommendations from AI models, identifying and flagging inaccuracies or hallucinations to maintain data integrity.
- Supported prompt optimization efforts for AI-driven knowledge validation tools, contributing to more precise and relevant outputs.
- Assisted in developing a deployment copilot by testing diverse business use cases and documenting user feedback for continuous improvement.
- Created and curated a prompt library for AI applications, standardizing language and improving consistency across user interactions.
- Gathered user feedback on AI tool effectiveness and adoption metrics, translating insights into actionable recommendations for system enhancements.
- Containerized AI validation services using **Docker** and deployed them to an **AWS** environment, managing basic resource configurations for predictable rollouts.

SKILLS

AI/ML Concepts – AI Testing, Validation, AI Hallucinations, Prompt Optimization, AI Effectiveness, Knowledge Validation

Programming & Scripting – Python, Java, SQL

Data Analysis & BI – Data Science, Statistical Skills, Data Analytics, Power BI, Tableau, DAX, Power Query

Cloud & DevOps – AWS, Docker, CI/CD, Jenkins, Git

Enterprise Systems – ERP Integration, Change Management, Jira, Confluence

Methodologies – Agile, Scrum

PROJECTS

AI Knowledge Validation Framework for Manufacturing

- Developed a Python-based framework to validate AI-generated knowledge artifacts against established manufacturing process documentation, reducing manual review time by **30%**.
- Implemented automated testing routines to identify discrepancies in AI-generated process comparisons, ensuring adherence to quality standards.
- Integrated the framework with a **Jira** workflow to track validation tasks and manage AI output quality through an Agile process.

Deployment Copilot Use Case Testing and Prompt Library

- Tested a suite of business use cases for a deployment copilot AI tool, documenting performance and user experience findings.
- Curated a comprehensive prompt library in **Python**, categorizing common queries and their optimal phrasing to improve AI response accuracy.
- Collaborated with product stakeholders to gather requirements and document lessons learned for future copilot enhancements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
