HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed **Power BI dashboards** for deployment readiness, integrating data from multiple sources to provide actionable insights to executive leadership.
- Analyzed key deployment metrics and historical trends to identify potential risks and areas for improvement in product rollout strategies.
- Created automated reporting processes using **Python scripting** and **Power BI**, standardizing key performance indicators across different product lines and reducing manual reporting effort by approximately 40%.
- Supported product owners by analyzing readiness progression and developing technical solutions to mitigate major deployment challenges, contributing to smoother product launches.
- Designed and built **Power BI dashboards** to visualize deployment performance scorecards, enabling faster identification of bottlenecks and performance deviations.
- Validated **AI-generated reports** by cross-referencing with foundational data and established analytical models, ensuring accuracy and reliability for decision-making.
- Managed and resolved **P1/P2 incidents** related to enterprise applications, adhering to strict SLAs and performing root cause analysis in a production environment.

SKILLS

BI & Visualization – Power BI, Tableau, DAX, Power Query, Data Modelling, Dashboards, Reporting Automation

Programming & Scripting – Python, Java, SQL, R, Bash Scripting

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace, Linux

Analytics & Data Science – Data Analytics, Statistical Analysis, Machine Learning Fundamentals, Exploratory Data Analysis, A/B Testing, Time-Series Analysis

PROJECTS

Deployment Analytics Dashboard (HCL Technologies)

- Developed a comprehensive **Power BI dashboard** to monitor product deployment readiness, consolidating data from manufacturing and quality assurance systems.
- Implemented automated data extraction and transformation pipelines using **Python** and **SQL**, reducing data preparation time for the analytics team by 30%.
- Analyzed deployment metrics and presented findings to cross-functional teams, contributing to a 15% improvement in on-time deployment rates for key projects.

Automated Reporting System for Operational Metrics (HCL Technologies)

- Engineered a **Python**-based system to automate the generation of daily and weekly operational reports, consolidating data from production support logs and monitoring tools.
- Built interactive **Power BI dashboards** to visualize key performance indicators derived from the automated reports, enabling stakeholders to track system health and performance trends.
- Collaborated with operations teams to define reporting requirements and validate report accuracy, ensuring alignment with business needs and regulatory awareness.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
