# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Structured and organized knowledge items, including documentation, procedures, and process maps, establishing relationships between content and the business hierarchy for a global medical technology firm.
- Applied classification and tagging standards to enhance document discoverability through consistent numbering and labeling, supporting knowledge governance processes across an enterprise repository.
- Supported AI search optimization initiatives by identifying content quality issues and validating knowledge retrieval outputs, recommending repository improvements for a knowledge management system.
- Developed Python scripts to automate data extraction and transformation tasks for operational reporting, processing approximately **15 GB** of raw data weekly into structured formats.
- Designed and implemented REST APIs using **Java Spring Boot** for integration between enterprise systems, facilitating data exchange and improving inter-service communication efficiency.
- Managed incident response for critical enterprise applications, resolving P1/P2 incidents within defined SLAs and performing root cause analysis using **Splunk** and **Dynatrace**.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, streamlining the deployment process and improving application portability.

## SKILLS

**Knowledge Management** – Knowledge Library Creation, Content Organization, Metadata Management, Taxonomy Management, Repository Governance

**AI & Search** – AI Search Optimization, Content Quality Analysis, Knowledge Retrieval Validation, AI Tooling

**Programming Languages** – Python, Java, SQL

**Frameworks & Libraries** – Spring Boot, pandas, NumPy, scikit-learn

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**Databases** – PostgreSQL, MySQL, Oracle

**Tools & Methodologies** – Jira, Confluence, Agile, Scrum, Power BI, Tableau, R

## PROJECTS

### Enterprise Knowledge Base Enhancement (HCL Technologies)

- Developed a Python-based system to ingest and categorize diverse knowledge assets, including technical documentation and process maps, for an enterprise client's internal knowledge library.
- Implemented a tagging system and hierarchical structure within the knowledge base, improving document discoverability by an estimated **30%** through enhanced search functionality.
- Collaborated with business analysts to define metadata standards and ensure repository governance, facilitating a more organized and accessible information architecture.

### Automated Reporting Pipeline (HCL Technologies)

- Built automated Python scripts to extract, transform, and load data from multiple enterprise systems into a central repository for scheduled operational reporting.
- Engineered data validation checks and error handling within the ETL process, ensuring data accuracy for approximately **12** distinct weekly reports.
- Integrated the reporting pipeline with **PostgreSQL**, enabling efficient data retrieval and analysis for business stakeholders.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
