HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Cataloged and organized current-state process documentation, including procedures and work instructions, from multiple deployment sites to establish a baseline understanding.
- Created and maintained process metadata within a repository, establishing relationships across different process documents to ensure content adherence to approved standards.
- Prepared process content for AI indexing and searchability, validating AI-generated process descriptions and assisting in the training and testing of AI process comparison capabilities.
- Developed Python scripts to automate data extraction and transformation from enterprise systems, supporting scheduled reporting and ETL processes.
- Designed and implemented REST APIs using Java Spring Boot for seamless data exchange between internal services, ensuring robust request validation and error handling.
- Managed production environments for enterprise applications, responding to P1/P2 incidents and performing root cause analysis to maintain service level agreements.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits for predictable rollouts.

SKILLS

Process Analysis – Process Documentation, Process Mapping, Process Improvement, Work Instructions, Site Documentation, Process Repository Management

AI & Machine Learning – AI Indexing, AI Searchability, AI Agent Development, AI Training, AI Testing, AI Process Comparison

Data Engineering & Automation – Python Scripting, ETL, Data Pipelines, Scheduled Reporting, Data Transformation, SQL

Software Development – Java, Spring Boot, REST APIs, Microservices, Docker, Git, Code Reviews

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, CI/CD, Linux Shell Scripting

Business Analytics – IT Business Analytics, Data Analytics, Process Intelligence, Systems Aptitude

PROJECTS

Enterprise Process Documentation Repository

- Developed a system for cataloging and organizing current-state process documentation from various deployment sites, including procedures and work instructions.
- Implemented metadata management for process documents, establishing relationships across repositories and ensuring content compliance with organizational standards.
- Integrated a content validation module to prepare process descriptions for AI indexing, enhancing searchability and assisting in the testing of AI-driven process analysis tools.

Automated Data Integration Service

- Engineered Python scripts to automate the extraction and transformation of data from disparate enterprise systems, creating efficient ETL pipelines for reporting.
- Designed and built RESTful APIs using **Java Spring Boot** to facilitate data flow and integration between core business applications, supporting cross-system communication.
- Managed the deployment and monitoring of these services on **AWS**, ensuring reliable data processing and adherence to operational standards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
