HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **REST APIs** using **Java Spring Boot** to facilitate data exchange between internal microservices, processing approximately **1,500 requests per minute**.
- Developed and maintained **Hibernate** mappings and queries for a core enterprise application, ensuring efficient data persistence and retrieval across **PostgreSQL** and **Oracle** databases.
- Authored **JUnit** tests and integrated them into **Jenkins** pipelines to achieve **85% code coverage** for new Java feature development, improving code quality.
- Collaborated with cross-functional teams, including quality assurance and manufacturing engineering, to identify and resolve issues impacting product quality and test equipment yields.
- Performed root cause analysis on component-level failures for implantable electronic medical devices, documenting findings and proposing corrective actions to the technical team.
- Contributed to the definition and implementation of improvements for in-house and external software applications, focusing on enhancing manufacturing yields and process efficiency.
- Containerized multiple Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, streamlining the deployment process and improving environment consistency.

SKILLS

Programming Languages – Java, Python, SQL, R, C++, C

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, scikit-learn, pandas, NumPy

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, LabVIEW

Methodologies – Agile, Scrum, Change Management, Test Validation

PROJECTS

Enterprise Java Application Support & Enhancement (HCL Technologies)

- Provided production support for a critical financial-services dashboard, resolving P1/P2 incidents within defined SLAs and analyzing logs using **Splunk** to identify root causes.
- Developed new features and refactored existing code in **Java Spring Boot**, enhancing transaction monitoring capabilities and improving dashboard responsiveness for operations teams.
- Executed SQL scripts for data validation and schema updates across **PostgreSQL** and **MySQL** databases as part of change management processes for enterprise business systems.

Medical Device Test Automation Framework

- Developed automated test scripts using **Python** to validate the functionality of electronic medical devices, covering key operational parameters and error handling scenarios.
- Integrated test execution into a CI/CD pipeline using **Jenkins**, enabling faster feedback loops and reducing manual testing effort for new device firmware releases by approximately **40%**.
- Analyzed test results and generated detailed reports on device performance and failure modes, contributing to the identification of areas for product quality improvement.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
