HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained robust UI components for a **Risk and Finance Technology** division application using **Angular 17+**, **TypeScript 5+**, and **RxJS**, contributing to business-critical system stability.
- Collaborated within an **Agile SCRUM team** to design, develop, and implement complex features, participating actively in sprint planning, daily stand-ups, and code reviews for a high-profile project.
- Integrated **GraphQL** APIs to fetch and display dynamic data within single-page applications, enhancing data retrieval efficiency and user experience for financial reporting modules.
- Implemented interactive data visualizations using **D3.js** and **PrimeNG** components to present complex financial metrics and risk indicators to business stakeholders.
- Enhanced user experience by integrating **AG Grid** for efficient display and manipulation of large tabular datasets, improving performance for risk analysis workflows.
- Worked with external programmers to coordinate the delivery of software application enhancements and ensure seamless integration across different system modules.
- Containerized frontend applications using **Docker** and configured **Jenkins** pipelines for automated builds and deployments to cloud environments.

SKILLS

Frontend – Angular 17+, TypeScript 5+, JavaScript, HTML5, CSS, SASS, RxJS, SPA

Data Visualization & Grids – D3.js, AG Grid, PrimeNG

API Integration – GraphQL

Development Practices – Agile, SCRUM, Git, Code Reviews

Containerization & CI/CD – Docker, Jenkins

PROJECTS

Angular-Based Financial Dashboard Enhancement

- Engineered interactive dashboards using **Angular** and **PrimeNG** to visualize key financial performance indicators for internal business units.
- Integrated **GraphQL** endpoints to dynamically populate dashboard widgets, reducing data load times by approximately 20% compared to previous REST-based solutions.
- Wrote comprehensive unit tests using Jasmine and Karma to ensure the stability and reliability of critical frontend components.

Customer Transaction Monitoring UI (HCL Technologies)

- Developed a React-based user interface to display real-time transaction monitoring data, enabling operations teams to quickly identify and address payment processing issues.
- Implemented client-side filtering and sorting logic using JavaScript to allow users to efficiently navigate and analyze high volumes of transaction data.
- Collaborated with backend engineers to define API contracts and integrate RESTful services for data ingestion into the monitoring dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
