PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and developed **Oracle APEX applications** to support complex financial reporting processes for an enterprise banking client.
- Engineered and optimized **complex PL/SQL packages**, procedures, and functions, improving data retrieval efficiency by **35%** for critical reporting queries.
- Collaborated with business analysts and finance teams to gather requirements, define reporting specifications, and deliver solutions within an **Agile development environment**.
- Developed and maintained **enterprise-level applications**, ensuring adherence to strict security and regulatory standards within a multinational banking context.
- Integrated and transformed data from disparate financial systems, supporting comprehensive **data integration** and reporting requirements.
- Troubleshot and resolved intricate **application and database performance issues**, reducing average incident resolution time by **20%**.
- Containerized and deployed **PL/SQL applications** and supporting services to a **Kubernetes** cluster on **AWS**, improving deployment consistency and rollback capabilities.

SKILLS

Database Development – Oracle APEX, PL/SQL, SQL, Oracle Databases, Performance Tuning, Indexing, Stored Procedures, Functions, Packages

Cloud & DevOps – AWS, Kubernetes, Docker, CI/CD, Jenkins, Git

Programming Languages – Java, Python, SQL

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy

Enterprise Systems – ERP, Financial Reporting, Transaction Monitoring, Reconciliation Workflows

Methodologies – Agile, Scrum, Change Management, Incident Response

PROJECTS

Financial Reporting Solution Enhancement

- Enhanced an existing **Oracle APEX** application to incorporate new regulatory reporting requirements, involving significant **PL/SQL** development and UI adjustments.
- Optimized critical SQL queries and database procedures within the reporting suite, leading to a **30% reduction** in report generation times for end-of-quarter financial statements.
- Collaborated with the finance department's business analysts to validate data accuracy and user acceptance testing for the updated reporting modules.

Automated ETL Pipeline for Financial Data

- Developed a **Python**-based ETL pipeline to automate the extraction, transformation, and loading of financial transaction data into a data warehouse.
- Ingested data from multiple sources including flat files and database extracts, performing complex transformations using **pandas** to ensure data consistency.
- Scheduled and monitored pipeline execution using **Jenkins**, successfully processing approximately **15,000 records** per hour with **99.5%** success rate.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
