PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Collaborated with business users to gather detailed requirements for system enhancements, translating needs into actionable technical specifications for IT application lifecycle management.
- Served as the primary technical point of contact for assigned enterprise applications, guiding implementation, upgrades, and providing expert-level support to cross-functional teams.
- Developed and maintained comprehensive technical documentation, including system design specifications, configuration plans, and detailed testing protocols to ensure adherence to SDLC standards.
- Created and adjusted operational and compliance reports using **Power BI**, enabling stakeholders to monitor key performance indicators and regulatory adherence.
- Managed the IT application change-control process, ensuring all modifications met established quality, security, and regulatory standards before deployment.
- Provided advanced troubleshooting and technical support for end-users, resolving application and server-level issues to maintain operational efficiency.
- Mentored junior IT team members on application support best practices and system functionalities, contributing to departmental knowledge sharing and skill development.

SKILLS

Application Support & Lifecycle Management – System Configuration, Upgrades, Deployment, Technical Documentation, Change Control, SDLC, System Validation

Business Intelligence & Reporting – Power BI, DAX, Power Query, Data Modelling, Operational Reports, Compliance Reports

Core Technologies – Java, Spring Boot, Python, SQL, PostgreSQL, AWS, Docker, Linux, Git, Jenkins

Enterprise Systems & IT Operations – ERP Integration, Production Support, Incident Response, SLA Management, User Access Controls, Audits

Data Analytics & Tools – Pandas, NumPy, scikit-learn, R, Tableau, Data Warehousing

Project Management & Methodologies – Agile, Scrum, Requirements Gathering, Stakeholder Management, Technical Estimation

PROJECTS

Enterprise Application Support & Enhancement (HCL Technologies)

- Managed the production support and lifecycle of key enterprise applications, ensuring high availability and performance through proactive monitoring and incident response.
- Developed Python scripts for automating ETL processes and generating scheduled operational reports, reducing manual effort by approximately **20 hours per week**.
- Implemented system configuration changes and minor feature enhancements in Java Spring Boot applications, adhering to strict change management protocols and post-implementation validation.

BI Dashboard Development for Operations (HCL Technologies)

- Designed and deployed interactive **Power BI** dashboards to visualize transaction flows and operational metrics for a financial-services client, improving oversight of payment operations.
- Developed complex **DAX** measures and Power Query transformations to integrate data from multiple sources, enabling detailed analysis of reconciliation workflows.
- Collaborated with business analysts to gather reporting requirements and conducted UAT for new dashboard features, ensuring alignment with stakeholder needs and regulatory awareness.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
