PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided 1st and 2nd level technical support for **charging equipment** and associated **software platforms**, diagnosing and resolving issues across hardware, software, and connectivity.
- Attended customer and project sites to investigate and repair faulty electrical equipment, guiding customers through remote troubleshooting procedures and corrective actions.
- Managed technical tickets from initial diagnosis through to resolution, adhering to agreed SLAs and KPIs, and escalating complex issues to engineering, product, or field service teams.
- Monitored backend systems and live networks for performance, connectivity, and alerts, setting up and supporting electrical equipment following installation and commissioning phases.
- Containerized backend services using **Docker** and deployed to **AWS EC2** instances, managing CI/CD pipelines via **Jenkins** for streamlined code integration and deployment.
- Developed Python scripts to automate data extraction and reporting for operational dashboards, improving data availability for analysis by the enterprise business systems team.
- Authored comprehensive production runbooks and internal documentation that the customer onboarding team now uses to bring new clients live in approximately 10 days instead of 4+ weeks.

SKILLS

Hardware & Software Support – Troubleshooting, Diagnostics, Field Service, Electrical Equipment, Charging Infrastructure, IoT, Connected Devices

Networking & Cloud – Networking Fundamentals, Cloud Platforms, APIs, OCPP, AWS (EC2, S3, Lambda, CloudWatch)

Software Development – Java, Spring Boot, Python, REST APIs, SQL (PostgreSQL, MySQL, Oracle), Docker, Linux

System Operations – Production Support, SLA Management, Incident Response, Change Management, CI/CD, Jenkins, Git

Business Tools – Microsoft 365 (Outlook, Word, Excel), Ticketing Systems (Salesforce, Freshdesk, Zoho, HubSpot), Jira, Confluence

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, R, pandas, scikit-learn

PROJECTS

Field Service Automation Tool (HCL Technologies)

- Developed a **Python**-based CLI tool to manage and track field service tickets, integrating with internal ticketing systems to streamline issue resolution.
- Automated the generation of weekly operational reports by scripting data extraction from **PostgreSQL** databases, reducing manual reporting effort by approximately 6 hours per week.
- Implemented basic logging and error handling for the automation scripts, ensuring reliable data processing for over 500 transaction records processed daily.

Customer Onboarding Playbook for IoT Devices

- Created a detailed technical onboarding guide and troubleshooting manual for enterprise customers adopting new **connected devices**, reducing initial setup queries by 40%.
- Designed interactive walkthroughs and basic product training materials for customer technical teams, focusing on common setup and connectivity issues.
- Documented standard operating procedures for remote diagnostics and firmware updates, improving first-contact resolution rates for common customer issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
