PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Acted as product owner and solution architect for **Salesforce Marketing Cloud** and integrated CMS platforms, ensuring platform scalability and data integrity for enterprise marketing initiatives.
- Developed and implemented platform-level solutions for marketing technology systems, aligning with business goals and enhancing automation for a user base exceeding 5 million.
- Collaborated with cross-functional teams, including trading squads and campaign managers, to deliver automated marketing solutions across multiple channels.
- Designed and implemented backend data integration solutions between CRM, CMS, and third-party marketing systems, managing technical tickets for successful deployment.
- Monitored and maintained data quality within marketing databases, ensuring compliance with **GDPR** and other relevant data protection regulations.
- Supported email development efforts, enhancing the delivery of scalable email solutions to support CRM strategies and drive customer engagement.
- Managed the end-to-end implementation of key strategic technical projects and platform integrations, serving as final authority for production sign-off.

SKILLS

Marketing Technology – Salesforce Marketing Cloud, CMS platforms, Tagging solutions, Email development, CRM strategies

Data & Analytics – SQL, Tableau, AMP Script, Excel, Data governance, Data quality, GDPR compliance

Development – HTML, CSS, Java, PHP, JavaScript

Project Management – Stakeholder management, Cross-functional collaboration, Technical project delivery

Platform Management – Platform architecture, Platform integration, Scalability, Automation, Efficiency

PROJECTS

Marketing Platform Integration and Automation

- Designed and implemented integrations between **Salesforce Marketing Cloud** and a client's **CMS platform**, enabling seamless data flow for customer engagement campaigns.
- Developed automated data pipelines using **SQL** and Python scripts to ingest and transform marketing data from various sources into a centralized analytics repository.
- Created interactive dashboards in **Tableau** to visualize campaign performance metrics, providing actionable insights to marketing stakeholders and improving decision-making by an estimated 15%.

Customer Data Enhancement and Governance

- Built a Python-based ETL process to cleanse and standardize customer data from multiple touchpoints, improving data accuracy for marketing segmentation by approximately 20%.
- Implemented data validation rules and automated checks to ensure compliance with **GDPR** regulations, reducing potential data privacy risks.
- Configured and managed user access and permissions within the marketing database, ensuring adherence to strict data governance policies.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
