HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported the delivery of laboratory systems projects within a GMP-regulated QC environment, collaborating with site teams on **system requirements gathering** and **configuration specifications**.
- Authored, reviewed, and approved **validation and lifecycle documentation** for laboratory systems, ensuring adherence to regulatory and data integrity standards.
- Assisted with deployment activities, system configuration, and provided **end-user support and training** for laboratory IT systems within a pharmaceutical context.
- Supported troubleshooting and ongoing reliability of QC laboratory IT systems, analyzing logs and identifying root causes for system issues.
- Collaborated cross-functionally with QC, IT, engineering, validation, and project stakeholders to ensure laboratory systems aligned with business objectives.
- Maintained strong **documentation practices** and ensured work was completed to a high compliance standard, supporting continuous improvement initiatives.
- Developed Python scripts to automate data extraction and reporting for laboratory system performance metrics, reducing manual effort by approximately **15%**.

SKILLS

Validation & Compliance – CSV, GMP, Data Integrity, 21 CFR Part 11, System Lifecycle Documentation, IOQ Protocol Generation

Laboratory Systems – QC Operations, Laboratory IT Systems, System Validation

Operating Systems – Microsoft Windows (Windows 10/11, Server), Linux

Core Technologies – Python, SQL, Java, Spring Boot, REST APIs, AWS, Docker, Jenkins, Git, Jira, Confluence

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, pandas, NumPy, scikit-learn, R/RStudio

PROJECTS

Laboratory System Validation Framework

- Designed and implemented a standardized framework for validating laboratory IT systems in a GMP environment, incorporating risk assessment methodologies.
- Authored comprehensive validation protocols and reports, ensuring traceability to system requirements and compliance with **data integrity** principles.
- Coordinated User Acceptance Testing (UAT) with Quality Control and IT teams, documenting outcomes and managing deviations for system sign-off.

Automated QC Reporting with Python

- Developed Python scripts to extract and process data from laboratory instruments and LIMS, generating automated reports for quality control metrics.
- Implemented data validation checks using **pandas** and SQL queries against a PostgreSQL database, improving data accuracy for critical QC parameters.
- Built interactive dashboards using **Power BI** to visualize key performance indicators and trends for laboratory operations, supporting continuous improvement efforts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
