PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Owned the end-to-end technical delivery of enterprise **Power Platform** solutions, encompassing **Power Pages**, Model-driven Apps, and **Power Automate**, integrating with **Dataverse**.
- Designed and developed advanced **C#/.NET** pro-code extensions, including server-side **Dataverse plugins** and custom APIs, to implement complex business logic.
- Mentored a team of junior developers within an agile delivery pod, fostering best practices in code quality and solution design through regular **code reviews**.
- Translated intricate business processes from enterprise stakeholders into scalable technical architectures, defining boundaries between low-code features and custom **Azure integration** components.
- Engineered robust backend business logic using **C#** and the **.NET framework**, ensuring high performance and maintainability for critical applications.
- Developed custom **JavaScript**, **HTML**, and **CSS** for deep UI customization within **Power Pages**, enhancing user experience and portal functionality.
- Containerized and deployed **Azure Functions** and related services to **Azure Blob Storage**, establishing CI/CD pipelines using Jenkins for automated deployments.

SKILLS

Power Platform – Power Pages, Model-driven Apps, Power Automate, Dataverse.

Pro-Code – C#, .NET, JavaScript, HTML, CSS.

Azure – Azure Functions, Logic Apps, Azure Blob Storage, REST APIs, JSON.

Development Methodologies – Agile, Scrum, Code Reviews, Technical Leadership, Stakeholder Management.

Integration – API Integrations, System Integrations.

Data Management – Relational Data Modeling, Security Roles.

PROJECTS

Enterprise Public Sector Digital Transformation

- Led the technical design and development of a **Power Pages** portal for a major public sector organization, integrating with **Dataverse** to manage citizen service requests.
- Implemented custom **C# plugins** for **Dataverse** to enforce complex validation rules and automate backend business logic for high-volume transactions, processing approximately 1,500 requests daily.
- Collaborated with business analysts and enterprise stakeholders to gather requirements and define architectural boundaries for migrating legacy applications to the **Power Platform**.

Azure Integration for Data Archiving

- Developed **Azure Functions** in C# to process and archive large volumes of data from enterprise systems into **Azure Blob Storage**.
- Designed and implemented REST APIs for seamless data exchange between the legacy systems and the new Azure-based archiving solution, handling JSON payloads.
- Configured Jenkins pipelines for automated testing and deployment of the Azure integration components, reducing deployment time by **40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
