HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Interviewed with R&D; teams and scientists at **three client organizations** to document eligible innovation activities for tax relief claims.
- Analyzed complex technical processes across engineering and software domains, translating findings into **compelling technical reports** for tax submissions.
- Collaborated with internal tax and compliance teams to ensure all technical content for R&D; claims was **audit-ready** and aligned with current guidelines.
- Developed **Python scripts** to automate data extraction and reporting for client engagements, reducing manual effort by approximately **20%**.
- Managed production support for enterprise applications, responding to P1/P2 incidents and performing root cause analysis using **Splunk and Dynatrace**.
- Designed and implemented **Java Spring Boot REST APIs** to facilitate data exchange between enterprise systems, supporting cross-system integrations.
- Containerized Python and Java applications using **Docker**, preparing them for deployment on cloud infrastructure.

SKILLS

Consulting Skills – Client Interviews, Technical Reporting, R&D; Tax Relief, Audit Readiness, Documentation Best Practices

Programming Languages – Python, Java, SQL

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Client Technical Discovery and Reporting Automation (HCL Technologies)

- Conducted technical interviews with R&D; leads at **two client companies** to identify eligible innovation projects and gather necessary documentation for R&D; tax claims.
- Developed a **Python data pipeline** to process interview notes and technical specifications, automatically generating draft report sections and saving an estimated **15 hours** of manual writing per client.
- Collaborated with client-side engineers to refine the understanding of their technical challenges, ensuring accurate representation in formal documentation.

Automated Data Pipeline for Financial Operations Dashboard (HCL Technologies)

- Engineered a **Java Spring Boot application** to ingest and process transaction data from multiple sources for a financial services operations dashboard.
- Implemented **SQL queries** against a PostgreSQL database to validate data integrity and populate reporting tables, reducing data reconciliation errors by **18%**.
- Wrote unit tests using **JUnit** to ensure the reliability and correctness of the data processing components.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
