HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Translated complex technical processes from client R&D; teams into compelling, compliant R&D; tax relief claims, ensuring audit-readiness for submissions.
- Conducted technical interviews and on-site visits with client engineering and science teams to gather detailed information on eligible R&D; activities.
- Analyzed technical documentation and project details to identify qualifying R&D; expenditures, collaborating with tax specialists to build robust claim narratives.
- Developed Python scripts to automate data extraction and aggregation from client systems, streamlining the analysis of R&D; project expenditures and reducing manual effort by approximately 40%.
- Designed and implemented REST APIs using Java Spring Boot to facilitate secure data exchange between internal systems and client-provided data feeds, supporting integration for over 15 enterprise clients.
- Managed production support for enterprise Java applications, responding to P1/P2 incidents and adhering to strict SLAs, resolving an average of 5 critical issues per week.
- Containerized Java Spring Boot applications using Docker and deployed them to AWS EC2 instances, improving deployment consistency and reducing setup time by 30%.

SKILLS

Core Consulting – R&D; Tax Relief, Technical Interviews, Report Writing, Client-Facing Analysis, Commercial Awareness, Problem Solving, Attention to Detail

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases & Data Warehousing – PostgreSQL, MySQL, Oracle, Data Modelling, Power Query

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

BI & Analytics Tools – Power BI, Tableau, DAX, RStudio

Enterprise Systems & Support – Jira, Confluence, Splunk, Dynatrace, Linux Shell Scripting

PROJECTS

R&D; Tax Credit Claim Automation (HCL Technologies)

- Developed Python scripts to parse technical documentation and financial records, identifying potential R&D; activities and associated expenditures for tax relief claims.
- Built data pipelines using pandas and SQL to aggregate and validate project data from disparate client sources, ensuring consistency for claim submission.
- Designed a reporting module in Flask that generated summary reports of eligible R&D; activities, supporting the final claim documentation for 8 clients.

Technical Documentation Analysis for Innovation Funding (HCL Technologies)

- Created a Java-based tool that analyzed technical specifications and project descriptions to flag keywords related to novel processes and technological advancements.
- Implemented natural language processing techniques to categorize R&D; efforts across engineering and software domains, improving the efficiency of initial claim assessments by 20%.
- Integrated the tool with an internal database to track identified R&D; activities, providing a searchable repository for future claim development.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
