HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Python** scripting for automating **ETL** processes and generating scheduled operational reports, reducing manual effort by approximately **15%**.
- Managed production support for enterprise **Java** and **.NET** applications, focusing on **SLA management** and resolving **P1/P2 incidents** using tools like **Splunk** and **Dynatrace**.
- Developed and maintained **Java Spring Boot** REST APIs for cross-service data exchange, incorporating **circuit-breaker patterns** and request validation.
- Deployed, configured, and maintained **VMware** virtualization platforms, performing live VM migrations with minimal service disruption.
- Built and maintained enterprise **NAS/SAN storage systems**, including volume/LUN creation, host mapping, and data replication configurations.
- Developed and executed compute and storage migration strategies for data center consolidation projects, identifying and mitigating potential risks.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, managing basic resource allocation and networking.

SKILLS

Cloud Platforms – AWS, Azure, Google Cloud

Virtualization – VMware, OpenStack, Hyper-V

Storage Systems – NetApp, Dell EMC, NAS, SAN, LUN management, Multipathing, Data Replication

Operating Systems – Linux, Windows Server

Scripting & Automation – Python, Bash, PowerShell, Terraform, Ansible

Networking – IPv4/IPv6, Cloud Network Architecture

DevOps & CI/CD – Git, Jenkins, Docker, Kubernetes

PROJECTS

HCL Data Center Migration Strategy Automation

- Automated compute and storage migration planning for a simulated data center consolidation using **Python** scripts, analyzing environment assessments and generating preliminary migration strategies.
- Developed reusable **Terraform** modules to provision and configure virtualized network segments and storage volumes, ensuring consistency across different cloud environments.
- Integrated monitoring hooks using **Splunk** to track migration progress and identify potential bottlenecks in real-time, providing actionable insights for operational teams.

HCL Enterprise Storage Virtualization Management

- Configured and managed **VMware vSphere** environments, including host clustering and virtual machine provisioning for enterprise applications.
- Implemented data replication solutions between **NetApp** storage arrays for disaster recovery purposes, reducing potential data loss RPO to under **4 hours**.
- Developed **Bash** scripts to automate routine storage administration tasks such as LUN creation and host mapping, improving efficiency by approximately **20%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
