HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** RESTful APIs for internal microservices, handling approximately **2,500 requests per minute** during peak loads.
- Implemented data persistence logic using **Hibernate** and **JPA**, managing complex object-relational mappings for enterprise application modules.
- Designed and implemented asynchronous processing patterns using **Java EE** and **JMS** for high-throughput transaction handling, improving system responsiveness by **18%**.
- Collaborated with product managers and designers to translate complex requirements into actionable technical tasks for new end-user features within the **Webex Meetings** platform.
- Authored comprehensive unit and integration tests for new code contributions, achieving an average code coverage of **85%** and reducing post-deployment defects.
- Participated in **Agile ceremonies** including sprint planning and daily stand-ups, estimating task complexity and contributing to team-level technical roadmap discussions.
- Containerised Java applications using **Docker** and deployed them to **AWS EC2** instances, managing configuration and basic resource allocation.

SKILLS

Languages – Java, Python, TypeScript, JavaScript, C++, Swift

Backend Frameworks – Spring Boot, Spring Cloud, Java EE, NestJS, Node.js

Databases – PostgreSQL, MySQL, Oracle, SQL, NoSQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, CI/CD

UI Frameworks – React, Angular, Qt, Cocoa

API Technologies – RESTful APIs, WebSockets, API Design

Testing – Unit Testing, Integration Testing, Contract Testing, Test Automation

PROJECTS

Webex Meetings Feature Development (Java)

- Engineered core backend components for new user-facing features in **Java Spring Boot**, ensuring seamless integration with existing meeting infrastructure.
- Designed and implemented RESTful APIs to support frontend interactions, enabling real-time data exchange for collaboration workflows.
- Authored detailed technical documentation and conducted knowledge-sharing sessions for junior engineers on the implemented feature modules.

Collaboration Platform API Gateway (API Design)

- Developed API specifications and contract tests for a new microservice architecture supporting **Webex Contact Center**, aiming for **150ms** p95 latency.
- Collaborated with cross-functional teams to define clear API contracts for inter-service communication, facilitating parallel development across multiple engineering pods.
- Implemented a proof-of-concept gateway using **FastAPI** to aggregate and route requests, demonstrating improved discoverability and reduced client-side complexity.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
