HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented core secure networking solutions, including **switching, wired, wireless, and routing**, to meet evolving enterprise requirements for a major technology client.
- Acted as the primary technical influencer for **Cisco's portfolio** within a key account, translating complex business needs into actionable technical requirements for IT leaders.
- Engaged in in-depth technical discussions, illustrating intricate **packet flows** and system architectures through detailed whiteboarding sessions for critical infrastructure projects.
- Collaborated with **architecture specialist teams** to integrate and position Cisco solutions competitively against alternative vendors in complex client environments.
- Developed and executed strategic planning and technical validation for opportunities, guiding them through the technical close phase with extended sales teams.
- Captured and relayed customer feature requests, market opportunities, and competitive intelligence back to internal **Cisco business units** and sales leadership.
- Containerized and deployed backend services using **Docker and Kubernetes** on AWS, managing CI/CD pipelines with Jenkins for streamlined releases.

SKILLS

Networking – Switching, Wired, Wireless, Routing, Firewall, WAN Architectures, Optical Transport, Network Visibility

Compute & Cloud – Unified Computing System (UCS), AWS (EC2, S3, Lambda, CloudWatch), Kubernetes, Docker

Security – Secure Networking, Threat Detection, Access Control

Observability & Automation – Telemetry, AI-Driven Operations, Programmability

Programming & Scripting – Java, Spring Boot, Python, SQL, Shell Scripting

Core Technologies – REST APIs, Git, Jenkins, Jira, Confluence, Linux

PROJECTS

Enterprise Network Architecture for Scalability

- Designed a resilient **WAN architecture** using advanced routing protocols to support global connectivity and improve scalability for enterprise operations.
- Implemented network segmentation and **firewall policies** to enhance security posture across multiple interconnected business units.
- Developed automation scripts in **Python** to streamline network configuration deployment and validation, reducing manual errors by **40%**.

Cloud-Native Observability Platform

- Engineered a centralized **observability platform** on **AWS** utilizing CloudWatch and containerized applications deployed via **Kubernetes**.
- Integrated telemetry data streams from diverse network devices and applications, providing real-time performance insights and **alerting** for critical systems.
- Developed **REST APIs** in Java Spring Boot to expose aggregated operational metrics for consumption by downstream analytics tools.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
