HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Python** automation scripts for data ingestion and scheduled reporting, processing approximately **1.5 TB** of data weekly.
- Designed and implemented **Java Spring Boot** REST APIs for new feature development, handling over **5,000 requests** per minute during peak load.
- Managed production support for enterprise applications on **AWS** using **Splunk** and **Dynatrace**, resolving P1/P2 incidents within defined SLAs.
- Built and maintained **automated tests** and associated **test infrastructure** in **Python**, covering unit, integration, and device-level scenarios.
- Contributed to the design of the team's **quality and testing approach**, focusing on CI integration, reporting, and enhanced **debug workflows**.
- Worked across the software stack, from **Linux-level** device behaviour to application integration, identifying and automating fixes for quality gaps.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, managing basic resource configurations and monitoring.

SKILLS

Languages – Python, Java, C++, SQL, R

Frameworks & Libraries – Spring Boot, scikit-learn, pandas, NumPy, Flask, FastAPI, Hibernate, JPA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux, Kubernetes, CI/CD

Testing & Automation – Unit Testing, Integration Testing, Test Automation, Test Strategy, Python Scripting

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, PostgreSQL, MySQL, Oracle, Power BI

PROJECTS

Automated Device Test Suite for Embedded Systems

- Developed a comprehensive **Python** test suite to automate validation for embedded device firmware, executing over **2,000 test cases** per build cycle.
- Integrated the test suite into a **Jenkins CI/CD pipeline**, enabling automated regression testing upon code commits and reducing manual testing effort by **40%**.
- Designed and implemented **device-level integration tests** simulating real-world network conditions, identifying critical bugs before production release.

API Integration Testing Framework

- Built a reusable **Python** framework for testing **REST APIs**, including request generation, response assertion, and data validation against schemas.
- Extended the framework to support **Linux-based testing environments** and integrated with **Docker** containers for consistent test execution across development and staging.
- Created automated tests for inter-service communication, ensuring data integrity and functionality across interconnected microservices.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
