PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** RESTful APIs for core Webex collaboration services, handling real-time signaling and user presence updates.
- Developed and maintained **JPA** and **Hibernate** mappings for a PostgreSQL database, ensuring data integrity and efficient retrieval of user configuration data.
- Wrote comprehensive **JUnit** and **Mockito** tests for Java components, achieving over **85% code coverage** for critical backend modules and reducing regression bugs by **30%**.
- Collaborated with product managers and UX designers in an Agile Scrum environment to break down product requirements into actionable technical tasks and provide estimations for sprint planning.
- Reviewed code submissions from junior engineers, providing constructive feedback on design patterns and implementation quality to maintain high engineering standards within the team.
- Investigated and resolved production issues impacting user experience for **millions of users** by analyzing logs and debugging complex distributed systems, identifying root causes for performance degradations.
- Containerized backend microservices using **Docker** and deployed them to an **AWS EKS** cluster, configuring basic resource limits and health checks for improved stability.

SKILLS

Languages – Java, C++, Python, TypeScript, JavaScript, Swift

Frameworks & Libraries – Spring Boot, JPA, Hibernate, JUnit, Mockito, React, Angular, Qt

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Tools & Methodologies – RESTful APIs, Agile, Scrum, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Webex Real-time Collaboration Service

- Developed a high-throughput **Java Spring Boot** microservice responsible for managing user presence and session state for a global collaboration platform.
- Implemented data persistence using **JPA** with **PostgreSQL**, optimizing queries to reduce average response times for user status updates by **22%**.
- Integrated the service with existing authentication and authorization systems via **RESTful APIs**, ensuring secure access for over **2 million concurrent users**.

Webex Developer Productivity Tools

- Built a **Python** CLI tool to automate the generation of boilerplate code for new Webex backend services, reducing setup time for new features by an average of **4 hours** per engineer.
- Developed unit tests for the CLI tool using **Pytest**, ensuring reliability and correctness in code generation for various service templates.
- Integrated the tool into the team's CI pipeline using **Jenkins**, enabling automatic code validation and standardisation for all new service deployments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
