HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed and enhanced securities settlement processes using **Power BI** for identifying bottlenecks and implementing procedural improvements, reducing manual reconciliation effort by **15%**.
- Prepared operational reports and administered defined procedures for client securities and derivatives transactions, ensuring adherence to audit and control policies.
- Evaluated transaction data to support the analysis and recommendations for new product launches and platform upgrades within the Operations - Transaction Services team.
- Monitored and analyzed settlement task data for accuracy and quality, contributing to the team's objective of clearing and settling client transactions.
- Maintained a comprehensive understanding of team collaboration and interdependencies with other departments to achieve shared objectives in transaction processing.
- Identified policy gaps within the securities and derivatives settlement workflows and proposed process streamlining initiatives to enhance efficiency.
- Managed and responded to P1/P2 incidents for enterprise applications on **AWS**, ensuring SLA adherence and timely resolution through **Splunk** and **Dynatrace** monitoring.

SKILLS

Financial Markets – Securities, Derivatives, Settlement, Transaction Processing, Order Processing, Reconciliation, Audit Policies

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Visualization, Data Analysis

Programming & Scripting – Python, Java, SQL, Spring Boot, R

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Change Management

PROJECTS

Securities Settlement Process Improvement Dashboard

- Developed an interactive **Power BI** dashboard to visualize the end-to-end securities settlement lifecycle, identifying key areas for process optimization.
- Applied **DAX** measures and **Power Query** to aggregate and transform data from multiple sources, enabling detailed analysis of settlement times and error rates.
- Presented findings and actionable insights to operations teams, leading to the adoption of revised procedures that reduced manual intervention by **18%**.

Automated Transaction Reconciliation Workflow

- Engineered a **Python** script to automate the reconciliation of daily transaction data against external reports, flagging discrepancies for investigation.
- Integrated the script with **PostgreSQL** to store reconciliation results and generate summary reports, decreasing manual reconciliation time from 4 hours to under 1 hour.
- Implemented error handling and logging mechanisms to ensure the robustness and reliability of the automated reconciliation process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
