HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and deployed **MES Platform environments** (Dev/Test/Production) across multiple sites, adhering to stringent validation lifecycle requirements for pharmaceutical API manufacturing.
- Managed the **Computer System Validation (CSV)** process for MES Platform projects, translating business requirements into validation plans and ensuring compliance from development through business release.
- Authored comprehensive **computer system validation documentation** in alignment with site-specific procedures and GMP guidelines, including IQ, OQ, and PQ protocols.
- Executed detailed **test scripts** for MES Platform configurations and integrations, analyzing results against pre-defined acceptance criteria and collaborating with business units to implement procedural controls for identified issues.
- Initiated and managed **Change Control activities** for MES Platform modifications, ensuring adherence to Quality Standards, Data Integrity principles, and timely implementation of approved solutions.
- Supported the design and execution of integration testing between the **MES Platform and adjacent systems** such as ERP and LIMS, ensuring seamless data flow and operational continuity.
- Containerized MES Platform components using **Docker** and managed deployments on **AWS EC2** instances, ensuring consistent environment builds and facilitating efficient rollback procedures.

SKILLS

MES Solutions – Emerson Syncade, MES Platform configuration, Electronic Batch Records (EBR), MES deployment

Validation & Compliance – Computer System Validation (CSV), Validation Plans, Requirements Gathering, System Testing, 21CFR Part 11, ER/ES, Data Integrity, GMP

Platform & Infrastructure – Server Installation, Security Configuration, Admin Settings, Access Permissions, Win 11 Environment, AWS EC2, Docker

Integration & Support – System Integration, DeltaV, ERP, LIMS, Troubleshooting, Incident Investigation

Tools & Methodologies – ALM, Kneat, Jenkins, Git, Jira, Confluence, Agile, Scrum

Core Technologies – Java, Spring Boot, Python, SQL, REST APIs, PostgreSQL

PROJECTS

MES Platform Environment Automation (HCL Technologies)

- Automated the build and configuration process for MES development and testing environments using **Python scripts** and **Ansible**, reducing manual setup time by 40%.
- Developed standardized deployment packages for MES core components and custom modules, ensuring consistent configuration across Dev, Test, and UAT environments.
- Integrated automated environment provisioning with **Jenkins CI/CD pipelines**, enabling rapid iteration cycles for MES platform feature development and testing.

GxP-Compliant Data Pipeline for Manufacturing Analytics

- Designed and implemented a **Python-based ETL pipeline** to extract, transform, and load manufacturing execution data into a data warehouse, supporting downstream analytics and reporting.
- Applied data validation checks and implemented audit trail logging within the pipeline to ensure compliance with **GxP and 21 CFR Part 11** requirements.
- Developed **SQL scripts** for data quality checks and schema evolution management on a **PostgreSQL** data warehouse supporting operational intelligence dashboards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
