HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and implemented **MES recipes** for manufacturing execution systems, ensuring adherence to **Quality Standards and Practices**.
- Translated complex **business requirements** into detailed system designs and executed comprehensive testing for new MES recipes and modifications.
- Configured and supported **interfaces between MES and other systems**, including ERP, Automation, and Lab environments, facilitating seamless data flow.
- Investigated and resolved production issues within the MES, determining root causes and recommending improvements to enhance system stability and performance.
- Generated **computer system validation documentation** in compliance with site procedures and **GMP guidelines** for MES configurations and changes.
- Collaborated with site teams to configure and maintain **system integrations**, ensuring reliable data exchange across diverse enterprise platforms.
- Containerized **Java Spring Boot applications** and deployed them to **AWS EC2 instances** using Docker, improving deployment consistency across environments.

SKILLS

MES Solutions – Emerson DeltaV MES, Syncade

Programming & Scripting – Visual Basic, Python

System Implementation & Support – Requirements Gathering, Design Documentation, System Testing, Integration Testing, COTS Implementation, Validation Deliverables, Configuration Management, Deployment

Databases – MS SQL Server

Core Technologies – Java, Spring Boot, REST APIs, Docker, AWS, Linux, Jenkins, Git

PROJECTS

MES Recipe Development and Deployment Framework

- Engineered a standardized framework for developing, documenting, and deploying **MES recipes**, reducing configuration time by **~20%** for new product introductions.
- Automated the generation of **validation documentation** for MES recipe changes using Python scripts, ensuring compliance with pharmaceutical manufacturing standards.
- Integrated the MES recipe deployment process with **Jenkins pipelines** for automated builds and testing, improving release cycle efficiency.

Automated Data Synchronization for ERP Integration

- Developed Python scripts to automate data synchronization between the MES and an **ERP system**, ensuring data consistency for production reporting.
- Designed and implemented REST APIs using **Java Spring Boot** to facilitate real-time data exchange, handling approximately **1,500 requests per hour**.
- Managed database schema changes and data validation in **PostgreSQL** to support the new integration workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
