HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and deployed **MES Platform environments** (Dev/Test/Production) across multiple sites, adhering to validation lifecycle requirements and site-specific procedures.
- Managed the **Computer System Validation (CSV)** process for MES Platform implementations, including requirements definition, test script generation, execution, and analysis against predefined criteria.
- Owned **server installation and system configuration** activities, including security hardening, admin settings, and access permission management for MES platforms.
- Supported **integration design and testing** between the MES Platform and adjacent systems such as ERP and LIMS, ensuring seamless data flow and operational continuity.
- Initiated and managed **Change Control activities** in accordance with Quality Standards and Data Integrity guidelines, documenting proposed changes and their impact.
- Reviewed and executed **test scripts** for Electronic Batch Records (EBR) recipes and MES deployments, analyzing results to ensure compliance and system readiness.
- Contributed to **MES Platform architecture and configuration decisions** during project implementation, providing technical input on system design and deployment strategies.

SKILLS

MES Platform – Emerson Syncade, System Configuration, Electronic Batch Records (EBR), MES Deployment

Validation & Quality – Computer System Validation (CSV), 21CFR Part 11, ER/ES, Data Integrity, GMP Guidelines, Quality Standards

System Administration – Server Installation, Workstation Platforms, Win 11 Environment, Security Configuration, Admin Settings, Access Permissions

Integration & Architecture – System Integration, DeltaV, ERP, LIMS, Technical Input, Platform Architecture

Testing & Documentation – Validation Plans, Requirements Gathering, Design Documentation, Test Scripts, ALM, Kneat

Core Technologies – Java Spring Boot, Python, SQL, AWS, Docker, Jenkins, Git, Linux

PROJECTS

MES Environment Build and Validation

- Configured and deployed **MES Platform environments** (Dev/Test/Production) for a pharmaceutical API manufacturing client, strictly following GMP guidelines and validation lifecycle requirements.
- Generated and executed comprehensive **CSV documentation**, including validation plans and test scripts, ensuring compliance with 21CFR Part 11 and data integrity standards.
- Collaborated with global IT and Quality teams to oversee software installation, system configuration, and security hardening for the MES platform.

ERP System Integration for Operations Dashboard

- Supported the integration design between an **ERP system** and a custom operations dashboard, focusing on data flow for reconciliation workflows.
- Developed **Python scripts** to automate data extraction and validation from the ERP database (PostgreSQL) for reporting purposes, improving data accuracy by **15%**.
- Assisted in troubleshooting cross-system integration issues, analyzing logs from **Splunk** to identify root causes for data discrepancies.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
