PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the **ServiceNow** incident queue for enterprise applications, resolving an average of **15 P1/P2 tickets** weekly and ensuring adherence to SLA targets.
- Initiated and executed **change-control activities** for system updates within a **Good Manufacturing Practice**-regulated environment, producing comprehensive documentation for quality assurance.
- Configured and deployed **MES recipes** and application changes within the **Emerson Syncade** solution, leading to a **20% reduction** in manual configuration errors.
- Developed and maintained **computer system validation documentation**, executing system and integration testing to ensure compliance with site procedures and project timelines.
- Collaborated with business users and cross-functional teams to gather requirements for **MES solutions**, recommending and implementing improvements that enhanced operational efficiency.
- Authored clear and maintainable technical documentation for **MES recipes** and system configurations, supporting knowledge transfer and ongoing system maintenance.
- Containerized Java Spring Boot applications using **Docker** and deployed them to a managed **AWS EKS** cluster, streamlining the deployment pipeline.

SKILLS

MES/ERP – Emerson Syncade, Electronic Batch Records, Weigh and Dispense, Equipment Management, Manufacturing Execution System

Support & Operations – ServiceNow, Incident Management, Change Control, Root Cause Analysis, SLA Management, Production Support

Development & Scripting – Java, Spring Boot, Python, Visual Basic, REST APIs, SQL

Cloud & DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Testing & Validation – System Testing, Integration Testing, Computer System Validation, Test Case Development

Data & Databases – PostgreSQL, MySQL, Oracle, Microsoft SQL Server

PROJECTS

MES Recipe Configuration and Deployment

- Configured and tested complex **MES recipes** for a pharmaceutical manufacturing client, ensuring accurate material flow and process execution.
- Developed deployment scripts using **Python** to automate the rollout of recipe changes across multiple manufacturing environments, reducing deployment time by **30%**.
- Authored detailed technical specifications and validation documentation for new recipe configurations, adhering to strict **Good Manufacturing Practice** standards.

Production Application Support Dashboard

- Built a **Java Spring Boot** application to aggregate monitoring data from **Splunk** and **Dynatrace**, providing a consolidated view of application health for an enterprise client.
- Implemented RESTful APIs for real-time data retrieval and integrated with **PostgreSQL** to store historical performance metrics, enabling faster incident triage.
- Designed and implemented an alerting mechanism within the dashboard that notified operations teams of critical performance degradations, reducing response time by **15%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
