HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and built out MES platform environments across **Dev/Test/Production** using **system validation** lifecycles and project requirements.
- Provided technical input into **MES Platform architecture** and configuration decisions during project implementation phases.
- Managed the **Computer System Validation (CSV)** lifecycle for MES Platform projects, from requirements definition through to business release.
- Collaborated with **service providers** and global IT & Quality teams to ensure correct **software installation** and configuration of platform components.
- Executed MES platform build activities and **server installations**, including security configuration, admin settings, and access permissions management.
- Supported integration design and testing between the MES Platform and adjacent systems, including **ERP** and **LIMS** interfaces.
- Initiated and implemented **Change Control** activities in adherence with Quality Standards, Practices, and Data Integrity protocols.

SKILLS

MES Platform – Emerson Syncade, Electronic Batch Records (EBR), system configuration, MES deployment, recipe testing.

Validation & Quality – Computer System Validation (CSV), GMP guidelines, 21CFR Part 11, ER/ES, Data Integrity, validation plans, requirements gathering, design documentation, system testing, troubleshooting, Quality Standards.

IT Infrastructure – Server installation, workstation platforms, Win 11 environment, security configuration, admin settings, access permissions.

System Integration – Integration design, integration testing, adjacent systems (DeltaV, ERP, LIMS).

Tools & Methodologies – ALM, Kneat, Jira, Confluence, Agile, Scrum, Change Control.

Core Technologies – Java, Spring Boot, Python, SQL, PostgreSQL, AWS, Docker, Linux, Jenkins, Git.

PROJECTS

MES Platform Configuration and Validation Suite

- Configured and deployed MES platform environments (Dev, Test) for pharmaceutical API manufacturing, adhering to **validation lifecycle** requirements.
- Developed and executed comprehensive test scripts for MES functionalities, analyzing results against predefined criteria to ensure **system integrity** and compliance.
- Generated detailed **computer system validation documentation**, including requirements, design, and test reports, in accordance with site procedures and **GMP** guidelines.

ERP Integration for Manufacturing Operations

- Supported the integration design and testing between an MES platform and an enterprise **ERP** system, focusing on data flow for production orders.
- Collaborated with business analysts and operations teams to define and validate data exchange requirements, ensuring seamless data transfer for **manufacturing operations**.
- Contributed to the troubleshooting of data discrepancies identified during integration testing, working to resolve issues before go-live.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
