PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided advanced **desktop support** for hardware, operating systems, and enterprise applications, resolving an average of 15 **incidents** per day.
- Executed detailed **troubleshooting** of operating systems, applications, and network connectivity, minimizing business disruption for global teams.
- Implemented standardized **configuration and hardening** of desktop environments, ensuring compliance with organizational security policies and best practices.
- Monitored and managed **endpoint health** using enterprise tools, proactively detecting performance issues and applying corrective actions to sustain device stability.
- Coordinated with infrastructure, application, and security teams to escalate complex technical issues, ensuring accurate **documentation** and incident closure within agreed timelines.
- Analyzed recurring incidents and problem trends to recommend process improvements, reducing ticket volumes by approximately **18%**.
- Maintained meticulous records of incidents and configurations in the **service management platform** to support audit readiness and operational transparency.

SKILLS

Desktop Support – Hardware Troubleshooting, Operating Systems, Enterprise Applications, Remote Support Tools, Endpoint Management Platforms, Ticketing Systems

Networking – IP Addressing, DNS, VPN Concepts, Network Connectivity Troubleshooting

Security – Antivirus Management, Encryption, Secure Authentication Methods, Compliance

Operating Systems – Windows, macOS

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, CloudWatch, Jenkins, Git, Docker

Programming & Scripting – Python, Java, SQL

Cloud – AWS (EC2, S3, Lambda)

PROJECTS

Enterprise Desktop Environment Enhancement

- Standardized desktop configurations and security hardening for over **500 end-user devices**, improving compliance with organizational security policies.
- Developed and documented **standard operating procedures** for common hardware and software issues, contributing to a 15% faster resolution time for the support team.
- Collaborated with the infrastructure team to integrate new **endpoint management tools**, enhancing remote troubleshooting capabilities across hybrid work environments.

Global Incident Triage and Resolution System

- Implemented enhanced monitoring and alerting using **Splunk and CloudWatch** for critical enterprise applications, reducing P1 incident response time by an average of **22%**.
- Automated routine diagnostic tasks using **Python scripting**, decreasing manual effort for common incident investigations by approximately **30%**.
- Managed the full lifecycle of **service requests and incidents** within Jira, ensuring timely resolution and clear communication with end-users and stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
