PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained internal tools and dashboards using **ASP.NET Core** and **SQL Server**, providing critical sales and stock figures to management.
- Engineered integrations between dealer systems and internal platforms, enabling seamless data flow and eliminating manual data entry for over **50,000 vehicle records** monthly.
- Designed and implemented an online service booking system, improving customer experience and streamlining appointment scheduling for **thousands of service bookings** annually.
- Built practical sales administration tools, including a **ticketing system** and workflow automation, to enhance the efficiency of the sales admin team.
- Integrated AI-assisted development tools into the team's workflow, accelerating code delivery for new features and internal automation scripts.
- Consumed and exposed **REST APIs** for system-to-system communication, facilitating data exchange between various business platforms.
- Managed CI/CD pipelines using **Jenkins** for automated builds and deployments, ensuring consistent and reliable software releases across development and production environments.

SKILLS

Backend Development – C#, ASP.NET Core, .NET, SQL Server, REST APIs, API Development, Microservices

Frontend Development – HTML, CSS, JavaScript, Web Development

Databases – SQL, Relational Databases, SQL Server, PostgreSQL

DevOps & Cloud – Jenkins, CI/CD, Docker, AWS, Cloud Services

AI & Automation – AI Coding Tools, Automation Scripting

Business Tools – Microsoft 365, Entra ID, Jira, Confluence

PROJECTS

Dealership Operations Dashboard & Reporting Portal

- Developed a comprehensive **ASP.NET Core** dashboard displaying key performance indicators for sales, stock, and vehicle valuations across multiple dealership locations.
- Implemented custom reporting features using **SQL Server**, enabling business users to generate on-demand reports on inventory turnover and sales performance, processed over **15,000 reports** in the first quarter.
- Integrated with existing dealer management systems via **APIs** to aggregate data, reducing manual data compilation effort for the management team.

Automated Customer Service Booking System

- Designed and built a customer-facing web application for booking car service appointments, utilizing **C#** and **ASP.NET Core**.
- Integrated the booking system with internal scheduling tools and customer databases, streamlining the service intake process for an average of **50 bookings per day**.
- Focused on creating a clean and usable **HTML, CSS, and JavaScript** interface for end-users, resulting in a **30% increase** in online service bookings within the first two months.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
