HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented enterprise-scale data pipelines on **Azure Databricks**, processing approximately **1.5 TB** of data daily for regulatory reporting.
- Developed and optimized **Python** scripts for ETL/ELT processes, enhancing data ingestion speed by **30%** for critical financial datasets.
- Built and maintained **SQL Server** stored procedures and views, ensuring performance tuning for complex analytical queries supporting risk functions.
- Engineered **Python**-based automation solutions for data quality checks and workflow orchestration, reducing manual intervention by **45%**.
- Contributed to the modernization of the Enterprise Data Warehouse, migrating on-premise data to a cloud-native **Lakehouse architecture**.
- Participated in production support for business-critical data platforms, investigating and resolving incidents to maintain operational stability.
- Containerized data processing jobs using **Docker** and deployed them to **Azure Kubernetes Service**, improving deployment consistency and scalability.

SKILLS

Cloud Platform – Azure Databricks, Microsoft Fabric, Azure Kubernetes Service

Data Warehousing – Lakehouse architecture, Medallion architecture, ETL/ELT design, Data modelling

Programming Languages – Python, SQL, T-SQL, JIL scripting

Databases – SQL Server, PostgreSQL

Orchestration & Automation – AutoSys, Workflow orchestration, Scripting

Development Practices – Agile methodologies, CI/CD, DevOps, Code reviews

PROJECTS

Cloud Data Warehouse Modernisation (HCL Technologies)

- Migrated on-premise relational data models to a cloud-based **Azure Databricks Lakehouse**, implementing **Bronze, Silver, and Gold** layers for enhanced data accessibility.
- Developed **Python** scripts for data transformation and validation, ensuring data integrity and consistency during the migration phase.
- Collaborated with infrastructure teams to configure and manage cloud resources, supporting the transition of critical reporting workloads.

Automated Data Pipeline for Financial Reporting (HCL Technologies)

- Designed and built an automated data pipeline using **Python** and **SQL Server** to aggregate transaction data for monthly financial reports.
- Implemented scheduling and orchestration using **AutoSys**, ensuring reliable execution of daily data processing jobs with detailed logging.
- Optimized SQL queries and data loading processes, reducing report generation time by **20%** and improving data accuracy for analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
