HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided technical expertise for the **installation and testing** of electrical works on a large-scale energy project, ensuring adherence to **design specifications** and quality standards.
- Reviewed and submitted **electrical design documentation** and specifications, collaborating with senior engineers to qualify assessments of electrical designs, studies, and reports.
- Supervised contractor activities during site works, ensuring compliance with **programme, budget, and quality** requirements, and managed resources to deliver assigned project tasks.
- Investigated and diagnosed causes of specific project issues and plant performance anomalies, developing and implementing effective solutions within the project lifecycle.
- Maintained a strong focus on **electrical safety practices** throughout the project, overseeing the safe handling, installation, and operation of electrical systems on site.
- Contributed detailed data and progress updates for ongoing project reporting requirements, tracking and reporting on the status of electrical system installations and commissioning.
- Oversaw the **installation and commissioning** of electrical systems, ensuring completion according to design specifications and identifying potential risks with mitigation measures for the project risk register.

SKILLS

Project Engineering – Electrical Project Engineering, Powerplant Background, Site Works, Installation, Testing, Commissioning, Design Specifications, Quality Standards, Programme Management, Budget Management, Contract Management

Electrical Systems – Electrical Design, Electrical Safety, Manufacturer's Equipment Testing, Electrical Systems Installation

Project Management – Resource Planning, Contractor Supervision, Project Reporting, Risk Identification, Mitigation Measures

Technical Expertise – Technical Support, Problem Diagnosis, Plant Performance Analysis, Solution Development

Compliance & Standards – Adherence to Standards, Regulatory Awareness, Quality Assurance

PROJECTS

Power Plant Electrical Systems Upgrade

- Managed the installation and testing of new electrical distribution systems for a major power generation facility, coordinating with multiple contractor teams.
- Developed detailed test plans and witnessed manufacturer equipment testing to verify compliance with stringent project specifications and safety protocols.
- Contributed to the resolution of technical issues encountered during the commissioning phase, ensuring timely and safe integration of new electrical infrastructure.

Renewable Energy Project Electrical Infrastructure

- Provided technical oversight for the site preparation and installation of electrical infrastructure for a new renewable energy generation site.
- Assisted in the review of contractor submissions for electrical works, including method statements and risk assessments, ensuring alignment with project requirements.
- Tracked and reported on the progress of electrical installations against the project schedule, identifying potential delays and proposing corrective actions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
