PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Maintained **High Voltage (HV) and Low Voltage (LV) electrical infrastructure** for a critical data centre campus, performing regular inspections and preventative maintenance.
- Executed **switching operations and electrical isolations** following strict safety protocols to ensure secure environments for maintenance activities.
- Fault-found across **switchgear, transformers, UPS, and control systems**, diagnosing issues and implementing timely resolutions to minimize operational impact.
- Supported **generator testing and commissioning activities** for new power generation units, verifying performance against design specifications.
- Monitored electrical systems and plant performance through **SCADA/BMS platforms**, identifying trends and potential areas for operational improvement.
- Participated in planned **shutdowns and critical maintenance programmes**, coordinating with cross-functional teams to ensure efficient execution.
- Managed **IT infrastructure support** for operational technology systems, resolving incidents and ensuring system availability for the energy centre.

SKILLS

Electrical Systems – High Voltage (HV), Low Voltage (LV), Switchgear, Transformers, UPS, MCCs, Control Systems

Mechanical Systems – Rotating Machinery, Pumps, Boilers, Steam Systems, Heat Exchangers, Gas Engines

Operations & Maintenance – Preventative Maintenance, Reactive Maintenance, Fault-Finding, Commissioning, Reliability Improvement, Planned Shutdowns

Safety & Compliance – Permit-to-Work, LOTO Procedures, Safety Standards, Statutory Compliance, Critical Environment Operations

Monitoring & Control – SCADA, BMS Platforms, Plant Performance Monitoring

IT Support – Incident Response, Ticketing Systems, System Monitoring

PROJECTS

Critical Power Infrastructure Uptime Enhancement

- Enhanced the reliability of **High Voltage (HV) electrical infrastructure** supporting a large-scale data centre campus, contributing to improved system uptime.
- Developed and implemented revised **preventative maintenance schedules** for key electrical components, reducing unscheduled outages by approximately 15% over a six-month period.
- Collaborated with senior engineers to troubleshoot complex faults within **switchgear and transformer systems**, ensuring rapid restoration of service.

Energy Generation Plant Performance Optimization

- Monitored and analyzed performance data from **gas-fired generation plant** and associated steam systems, identifying opportunities for efficiency gains.
- Supported the troubleshooting and maintenance of **rotating machinery and pumps** within the energy centre, ensuring operational readiness.
- Assisted in the execution of **commissioning activities** for new plant equipment, validating operational parameters and safety interlocks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
