HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered and supported **Microsoft Azure services** for analytics and data engineering workloads, maintaining platform availability across multiple regions.
- Configured and managed **Microsoft Fabric** workspaces, capacities, and networking to ensure secure and scalable data processing environments.
- Implemented governance and security controls within Azure, focusing on access management, data standards, and compliance monitoring for sensitive datasets.
- Automated data source registration, scanning, and classification using **Microsoft Purview**, enhancing data cataloguing and discoverability for enterprise users.
- Built and maintained CI/CD pipelines using **Azure DevOps**, incorporating source control, pull requests, and automated deployments for infrastructure and platform components.
- Developed Python scripts to automate infrastructure provisioning and configuration management, aligning with infrastructure-as-code principles.
- Monitored platform health and performance using Azure Monitor and other observability tools, contributing to capacity planning and incident response efforts.

SKILLS

Cloud Platforms – Microsoft Azure, Microsoft Fabric, AWS (EC2, S3, Lambda, CloudWatch)

DevOps & Automation – Azure DevOps, CI/CD, Jenkins, Git, Docker, PowerShell, Python, Bicep, ARM, Terraform

Data Governance & Cataloging – Microsoft Purview

Core Technologies – SQL, PostgreSQL, MySQL, Oracle, Linux, Shell Scripting

Programming Languages – Python, Java, Spring Boot, REST APIs

PROJECTS

Azure Data Platform Foundation

- Designed and deployed core Azure infrastructure for a new data analytics platform using **Bicep**, including VNet integration, private endpoints, and managed identity configurations.
- Established CI/CD pipelines in **Azure DevOps** for deploying and managing platform components, automating infrastructure updates and reducing manual deployment errors by approximately 45%.
- Integrated **Microsoft Purview** for data source registration and scanning across Azure SQL databases and Azure Data Lake Storage, enabling a centralized data catalog.

Fabric Workspace Governance and Automation

- Developed **Python** scripts to automate the creation and configuration of Microsoft Fabric workspaces, enforcing naming conventions and access policies for multiple delivery teams.
- Implemented automated monitoring for workspace health and resource utilization within Fabric, flagging potential capacity issues and cost overruns before they impacted operations.
- Configured role-based access control (RBAC) for Fabric workspaces and items, ensuring data segregation and compliance with enterprise security standards.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
