HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented Python data-processing components for analytics software, incorporating mathematical models and time-series data analysis.
- Developed and maintained Python scripts for automation, ETL processes, and scheduled reporting, enhancing operational efficiency by **18%**.
- Contributed to the development of REST APIs using **Java Spring Boot**, focusing on feature enhancements and bug resolutions for enterprise applications.
- Researched and applied algorithms and data structures to optimize software modules, improving processing speeds for analytical tasks.
- Managed production support for enterprise applications, responding to P1/P2 incidents and ensuring adherence to strict SLAs within a **Linux** environment.
- Collaborated with senior staff and customer teams to troubleshoot, debug, and enhance system performance, reducing bug resolution time by **22%**.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time.

SKILLS

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle, NoSQL

Tools & Technologies – Docker, Jenkins, Git, Jira, Linux, Splunk, Dynatrace

Data Analytics & BI – Power BI, Tableau, DAX, Power Query, Time-Series Analysis

Development Methodologies – Agile, Scrum

PROJECTS

Energy Analytics Platform Development (HCL Technologies)

- Engineered Python data pipelines to ingest and process time-series energy consumption data for analytical models, handling approximately **5,000 data points per minute**.
- Developed REST APIs using **FastAPI** to serve processed data to downstream analytics dashboards, ensuring efficient data retrieval for performance monitoring.
- Implemented unit tests and integration tests for Python modules, achieving **85% code coverage** and improving code reliability.

Optimisation Workflow Automation (HCL Technologies)

- Created Python scripts to automate data validation and reconciliation tasks for operational workflows, reducing manual effort by **30%**.
- Integrated with **PostgreSQL** databases to extract and transform data for optimisation algorithms, supporting complex analytical queries.
- Documented the automation process and provided basic training to operations teams, facilitating smoother adoption of new tools.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
