HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** REST APIs for inter-service communication, handling approximately **4,000 requests per minute** during peak load.
- Developed and maintained **PostgreSQL** database schemas and optimized queries, reducing data retrieval times for critical reports by **18%**.
- Authored **Python scripts** to automate data ingestion and transformation processes, decreasing manual ETL effort by **30%** weekly.
- Contributed to the design and development of large-scale backend services, focusing on API design and distributed systems principles for a new platform foundation.
- Participated in code reviews and mentored junior engineers on web and backend development best practices, ensuring adherence to engineering standards.
- Managed system issues by triaging, debugging, and analyzing sources of problems to understand their impact on service operations and availability.
- Containerized backend services using **Docker** and deployed them to **Kubernetes (AWS EKS)**, managing configurations and resource allocation.

SKILLS

Languages – Java, Python, SQL, Go

Frameworks & Libraries – Spring Boot, Hibernate, JPA, scikit-learn, pandas, NumPy, FastAPI

Databases – PostgreSQL, MySQL, Oracle, Cassandra, Redis

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Kubernetes, Docker, Jenkins, GIT, OpenSearch, Kafka

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence

PROJECTS

Enterprise Java Microservices for Platform Integration

- Engineered a suite of **Java Spring Boot microservices** to handle core platform functionalities, processing over **3,500 transactions daily**.
- Implemented data persistence layers using **Hibernate and PostgreSQL**, ensuring data integrity and efficient querying across multiple modules.
- Developed comprehensive **JUnit and Mockito** test suites, achieving **85% code coverage** for critical service endpoints.

Python-based Data Pipeline for Operational Insights

- Built an automated **Python data pipeline** using **pandas** to aggregate logs and metrics from distributed systems, generating daily operational reports.
- Integrated the pipeline with **AWS S3** for data storage and **OpenSearch** for indexed log searching, facilitating faster incident analysis.
- Optimized data processing logic, reducing the pipeline execution time by **22%** and improving data freshness.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
