PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Established **trusted client relationships** and conducted detailed financial needs assessments to develop bespoke financial plans for individuals and families.
- Converted **referral opportunities** into new business by delivering holistic financial advice across investments, pensions, and protection solutions.
- Managed a pipeline of prospective clients by actively seeking **referral and lead generation opportunities**, ensuring consistent business development.
- Designed and implemented **tailored financial plans** aligned with client needs, utilizing digital planning tools and client engagement platforms.
- Collaborated with internal teams and external referral partners to **maximize new business opportunities** and drive client success.
- Ensured all activities adhered to **regulatory requirements**, Davy's Risk Management Framework, and internal Policies and Policy Standards.
- Containerized a Java Spring Boot microservice for client data aggregation using **Docker** and deployed it to an **AWS EC2** instance, improving data retrieval efficiency by **18%**.

SKILLS

Financial Planning – Investment Advice, Pension Planning, Protection Solutions, Financial Advice, Wealth Transfer

Client Relationship Management – Trusted Relationships, Needs Assessment, Client Engagement, Business Development, Referral Generation

Technical Tools – Digital Planning Tools, CRM Platforms, Client Portals, Java Spring Boot, Docker, AWS EC2

Regulatory Compliance – Mifid, Risk Management Framework, Internal Policies, QFA, CFP

Business Operations – Pipeline Management, Lead Generation, Cross-functional Collaboration, Process Improvement, Decision Making

PROJECTS

Client Financial Planning and Advisory Platform

- Developed a Java Spring Boot application to manage client profiles, financial goals, and investment portfolios, integrating with internal client data systems.
- Implemented features for generating tailored financial advice reports and tracking client progress towards long-term objectives, enhancing client engagement.
- Managed the deployment of the application to a staging environment on AWS, ensuring stability and performance for user acceptance testing.

Automated Client Onboarding Workflow

- Engineered a Python script to automate the initial data collection and validation process for new clients, reducing manual data entry by **40%**.
- Integrated the script with a mock CRM system API to simulate client data ingestion and ensure seamless workflow from lead to onboarding.
- Documented the onboarding process and provided a walkthrough to the operations team, enabling faster client setup.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
