HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, handling approximately 1,500 requests per minute during peak hours.
- Implemented complex business logic and resolved defects in **Java** applications, contributing to a **15%** reduction in critical production incidents.
- Designed and implemented data persistence layers using **Hibernate** and **JPA** for enterprise applications, managing over 50 distinct entities.
- Contributed to the development of automated testing solutions for manufacturing test environments, integrating **Python** scripts to validate system behaviour.
- Participated in code reviews and Agile ceremonies, including sprint planning and daily stand-ups, to ensure timely delivery of software features.
- Collaborated with cross-functional teams to troubleshoot software defects and integration issues across hardware, firmware, and networking domains.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, improving deployment consistency and reducing setup time by **40%**.

SKILLS

Languages – Java, Python, SQL, R, Bash

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Jira

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Confluence, Tableau, Power BI

Methodologies – Agile, Scrum, CI/CD, Test Automation

PROJECTS

Automated Manufacturing Test Suite Enhancement

- Developed a **Python**-based test automation framework to validate firmware configurations on server hardware, reducing manual testing effort by approximately **30%**.
- Integrated **REST APIs** to trigger test sequences and collect results from embedded devices, enabling real-time monitoring of test progress.
- Wrote **SQL** queries to analyze test logs and identify failure patterns, contributing to a **20%** improvement in defect detection efficiency.

Enterprise Application Performance Monitoring

- Engineered **Java Spring Boot** microservices to collect and expose performance metrics for critical enterprise applications.
- Configured **Splunk** dashboards to visualize application health and track key performance indicators (KPIs) against defined SLAs.
- Implemented automated alerting for performance degradation and critical errors, reducing average incident response time by **25%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
