PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed, built, and tested **factsheet templates** and reusable components with integrated layouts, charts, and conditional content, ensuring consistent application of brand and accessibility requirements.
- Developed **SQL queries and stored procedures** to extract, transform, and validate reporting data for automated factsheet generation, optimizing extraction logic for improved performance.
- Managed the end-to-end lifecycle of client change requests, translating business needs into detailed functional and technical specifications for reporting solutions.
- Implemented enhancements to batch processing and distribution workflows, automating report generation and delivery pipelines to meet client SLAs.
- Collaborated with operations and product teams to conduct structured testing across data, calculations, and layouts, managing defects and supporting UAT prior to production handover.
- Designed and maintained **data mappings and transformations** within a relational data model to support the accurate and timely production of client-facing reports.
- Containerized reporting services using **Docker** and deployed them to an **AWS EC2** environment managed via **Jenkins** pipelines for automated build and deployment.

SKILLS

Reporting Platforms – SimCorp Client Reporting, Crystal Reports, Qlik, Power BI

Database & SQL – SQL Server, PostgreSQL, MySQL, Oracle, Stored Procedures, Relational Data Models, Data Warehousing

Data Transformation & ETL – Power Query, Data Mappings, Data Validation, Batch Processing

Programming & Scripting – Python, Java, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Analytics & BI Tools – Power BI, Tableau, DAX, R, pandas, NumPy

Methodologies – Agile, Scrum, Requirements Gathering, Solution Design, UAT, Change Management

PROJECTS

Client Reporting Automation Framework (HCL Technologies)

- Developed a Python-based framework to automate the generation and distribution of monthly financial reports for enterprise clients, reducing manual effort by **~40%**.
- Engineered **SQL scripts** to extract and aggregate performance and portfolio data from multiple PostgreSQL sources into a unified reporting dataset.
- Designed and implemented reusable reporting components in Java Spring Boot, including data validation logic and REST API endpoints for data retrieval.

Interactive Investment Dashboard (MSc Data Analytics Project)

- Created interactive **Power BI** dashboards visualizing key investment fund metrics, including performance, risk, and ESG scores, for stakeholder review.
- Applied **DAX measures** and complex data modelling techniques to derive insights from a large dataset of historical fund performance data.
- Utilized **Power Query** to ETL and shape raw data from various sources into a clean format suitable for reporting and analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
