HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and deployed **agentic AI solutions** using **CrewAI** and **Vertex AI** to automate responses to common EUS service requests, reducing ticket resolution times by an average of **30%**.
- Managed the secure operation and governance of enterprise AI tools, including **Claude** and **Gemini**, implementing access controls and SSO integrations with enterprise systems.
- Owned employee onboarding, documentation, and self-service guidance for new AI capabilities, developing training materials that streamlined adoption and decreased support requests by **20%**.
- Partnered with Security and IT teams to implement data handling, retention, and compliance policies across AI tools, ensuring adherence to enterprise standards for AI usage.
- Monitored platform health, usage, and license utilization for AI tools, coordinating with vendors to resolve escalated technical issues and maintain service availability.
- Evaluated emerging enterprise AI tools and agent capabilities, recommending strategic investments to advance the company's AI strategy and employee productivity goals.
- Containerized AI agent workflows using **Docker** and deployed them to a scalable cloud environment, ensuring efficient resource utilization and simplified management.

SKILLS

AI/ML Platforms – Claude, Gemini, Antigravity, Rovo, Vertex AI, CrewAI, LLM, RAG

Programming Languages – Python, Java

Cloud & DevOps – AWS, Docker, Kubernetes, CI/CD, Jenkins, Git

Enterprise Systems – Jira, Confluence, Slack, Google Workspace

Security & Compliance – SSO, Access Controls, Data Handling Policies, Compliance Controls

Methodologies – Agile, Scrum

PROJECTS

Enterprise AI Agent Deployment Platform

- Built a Python-based framework for deploying and managing AI agents, integrating with **Vertex AI** for model execution and **CrewAI** for orchestrating agent tasks.
- Developed secure API integrations to connect AI agents with enterprise systems like **Slack** and **Jira**, enabling automated ticket management and communication flows.
- Implemented robust logging and monitoring for AI agent performance and resource consumption, facilitating prompt identification and resolution of operational issues.

AI Tool Adoption and Enablement Program

- Designed and delivered comprehensive onboarding documentation and training sessions for new AI tools, empowering over **500** employees to adopt generative AI safely.
- Created interactive demos showcasing AI capabilities for common productivity tasks, directly addressing employee pain points and demonstrating tangible benefits.
- Established a feedback loop with employee user groups to gather insights on AI tool usage, informing roadmap decisions and iterative improvements to the AI platform.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
