PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and deployed agentic AI solutions using **CrewAI** and **Vertex AI** to automate responses to common employee service requests, reducing resolution time by an average of **30%**.
- Managed the secure operation and governance of enterprise AI tools including **Claude**, **Gemini**, and **Slackbot**, ensuring compliance with data handling and access control policies.
- Built and enabled enterprise AI capabilities by integrating **SSO** and access controls with tools like **Atlassian Rovo**, connecting them to core enterprise systems.
- Monitored AI platform health and license utilization across a fleet of **50+ AI services**, coordinating with vendors to resolve critical issues and maintain operational stability.
- Led the company-wide rollout of a new AI feature, managing pilot programs, gathering user feedback, and developing comprehensive onboarding documentation and training materials.
- Partnered with Security and IT teams to implement and enforce data retention and compliance policies across all integrated AI platforms, ensuring adherence to enterprise standards.
- Containerized AI agent services using **Docker** and deployed them to an **AWS EKS** cluster, implementing basic resource limits and monitoring for predictable performance.

SKILLS

AI/ML Platforms – Claude, Gemini, Antigravity, Rovo, Slackbot, Vertex AI, CrewAI

Programming Languages – Python, Java, SQL

Cloud & DevOps – AWS, Docker, Kubernetes, EKS, CI/CD, Jenkins, Git

Enterprise Systems – Jira, Confluence, Atlassian Rovo, Slack

AI Concepts – Agentic AI, RAG, LLMs, Prompt Engineering, Data Governance, Access Controls

Operations & Support – Incident Management, IT Automation, Policy Implementation, Employee Enablement

PROJECTS

Enterprise AI Agent Deployment Framework

- Developed a Python framework for deploying and managing AI agents on **AWS EKS**, automating the provisioning of **Docker** containers and Kubernetes deployments.
- Integrated the framework with **Jira** and **Confluence** APIs to enable agents to autonomously create tickets and document resolutions, improving workflow efficiency by an estimated **22%**.
- Implemented role-based access control (RBAC) and secrets management using **HashiCorp Vault** to ensure secure agent operation and data handling.

Intelligent IT Service Request Automation

- Built an AI-powered workflow using **CrewAI** and **Python** to automate the triaging and resolution of common IT service requests, such as password resets and software access.
- Designed a **RAG** pipeline to ingest and query an internal knowledge base, enabling agents to provide contextually relevant solutions and reducing manual intervention by **~40%**.
- Developed comprehensive user documentation and training materials for the AI automation service, facilitating adoption across the employee base.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
