HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engineered **Python** automation scripts to streamline data ingestion and ETL processes for operational reporting, reducing manual effort by an estimated **15 hours** per week.
- Developed and maintained **Java Spring Boot** REST APIs for inter-service communication, implementing secure endpoints and handling approximately **4,000 requests** per hour.
- Managed production support for enterprise applications using **Splunk** and **Dynatrace**, responding to P1/P2 incidents and ensuring SLA adherence for critical systems.
- Designed and implemented reusable **Terraform** modules for provisioning cloud infrastructure on **AWS**, enabling consistent deployments across development and staging environments.
- Built and managed automated release pipelines using **Jenkins** and **Git**, integrating code reviews and automated testing to improve deployment frequency by **30%**.
- Established infrastructure and monitoring capabilities to support dynamic safety validation and testing of AI-driven tools prior to production rollout, focusing on observability and alerting.
- Contributed to an internal developer portal offering visibility into vulnerability metrics and automated fix workflows, enhancing developer awareness of security posture.

SKILLS

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Terraform, Bicep, ARM, Docker, Kubernetes

Programming Languages – Python, Java, SQL, R, Bash

Frameworks & Libraries – Spring Boot, scikit-learn, pandas, NumPy, Flask, FastAPI

Tools & Platforms – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Microsoft Sentinel, Azure DevOps Pipelines, GitHub Actions

Databases – PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Site Reliability Engineering (SRE), Infrastructure-as-Code (IaC), CI/CD

PROJECTS

Secure Cloud Infrastructure Automation (HCL Technologies)

- Developed a suite of hardened **Terraform** modules for deploying secure, compliant application environments on **AWS**, including network segmentation and IAM policies.
- Integrated **Jenkins** pipelines to automate the deployment of Terraform configurations, enforcing policy-as-code gates using **Checkov** to validate security best practices before infrastructure provisioning.
- Implemented comprehensive monitoring and logging using **AWS CloudWatch** and **Splunk**, establishing alerts for critical infrastructure events and performance deviations.

Automated Security Tooling Rollout

- Built automated provisioning workflows for security sandboxes using **Python** and **Bicep**, enabling offensive security teams to spin up isolated environments on demand for adversary simulation testing.
- Developed reusable IaC templates for deploying and managing security tooling like SIEM agents and vulnerability scanners across cloud environments, reducing setup time for new security initiatives by approximately **40%**.
- Collaborated with security operations to streamline evidence gathering for compliance reporting by automating the collection of security logs and configuration data against industry benchmarks.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
