PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Owned the end-to-end lifecycle of GTM systems, including **Salesforce**, **HubSpot**, and **Dealhub CPQ**, ensuring data consistency across interconnected platforms.
- Translated business requests into technical solutions by identifying underlying problems and proposing trade-offs, often advising against direct implementations to ensure system integrity.
- Automated recurring manual tasks by developing self-service tools and integrations, reducing operational overhead for sales and marketing teams by an estimated **20%**.
- Built custom integrations and automations using **Python** and **REST APIs**, focusing on maintainability and respecting API rate limits, with robust error handling and monitoring.
- Managed the data model for GTM systems, actively retiring unused fields and enforcing data quality at entry points to maintain trustworthiness.
- Provided **EMEA-hours support** for the GTM technology stack, diagnosing and resolving issues within integrated systems.
- Documented system changes and followed formal change management processes for deployments from sandbox to production environments, collaborating with an internal engineering team.

SKILLS

CRM & CPQ – Salesforce Sales Cloud, Advanced Flow, Data Model, Security Model, HubSpot, Dealhub CPQ

Programming & Scripting – Python, Apex, SOQL, REST APIs, JavaScript

System Integration & Automation – Workflow Automation, Self-Service Tools, API Integrations, Data Synchronization

Data Management – Data Model Design, Data Quality Enforcement, Legacy System Retirement

Operations & Support – Enterprise Systems Support, Change Management, EMEA-hours Support, Incident Resolution

AI Tools – AI Coding Tools, AI Automation Tools

PROJECTS

GTM Systems Integration & Automation

- Designed and implemented a **Python**-based integration between **Salesforce** and a marketing automation platform to synchronize lead data, reducing manual data entry by **15 hours** per week.
- Developed automated workflows within **Salesforce Flow** to streamline the quote-to-cash process, improving data accuracy and reducing processing time for new opportunities.
- Created a self-service reporting dashboard using **Power BI** to provide sales teams with real-time visibility into pipeline metrics, accessible to over **20 users**.

Automated CRM Data Quality Initiative

- Built a **Python** script to identify and flag duplicate records in **Salesforce**, leading to a **10%** reduction in data redundancy over three months.
- Developed a set of automated validation rules within **HubSpot** to enforce data quality standards for new contact entries, catching approximately **30%** of potential errors at the source.
- Documented the new data quality processes and trained the marketing operations team on their usage, ensuring adherence and continued improvement.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
