PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Owned the end-to-end lifecycle of GTM systems, including **Salesforce**, **HubSpot**, and **DealHub CPQ**, ensuring seamless data flow and system integrity.
- Translated complex business requests from Sales and Marketing Operations teams into actionable technical solutions, proposing trade-offs and saying 'no' when necessary to maintain system architecture.
- Automated recurring manual tasks for business users by developing self-service tools and integrations, reducing manual effort by an estimated **15 hours per week**.
- Designed and implemented custom integrations between GTM systems, adhering strictly to **API limits**, incorporating robust **error handling** and **monitoring**.
- Refactored and enforced data quality standards within the CRM, retiring **~30 unused fields** and legacy workarounds to maintain a lean and trustworthy data model.
- Provided direct EMEA-hours support for the GTM technology stack, analyzing issues to identify systemic problems and prioritize fixes.
- Documented all system changes and followed formal **change management** processes from sandbox environments to production deployment.

SKILLS

CRM & Sales Tools – Salesforce Sales Cloud, Dealhub CPQ, HubSpot, ZoomInfo, Gong Professional, Gong Engage, Lusha, LinkedIn Sales Navigator

Programming & Scripting – Python, JavaScript, Apex, SOQL

Integration & APIs – REST APIs, Native Connectors, System Integrations

Data Management & Quality – Data Model Design, Data Quality Enforcement, Field Retirement

Cloud & Automation – AWS, AI Tools, Automation Tools, Scripting

Methodologies – Agile, Change Management, Systems Thinking

PROJECTS

GTM Systems Integration & Automation (HCL Technologies)

- Developed Python scripts to automate data synchronization between an enterprise ERP system and a financial services operations dashboard, ensuring data consistency across platforms.
- Built and maintained REST APIs using Java Spring Boot for cross-system integrations, supporting data flows for operational reporting and transaction monitoring.
- Implemented comprehensive monitoring and alerting using **Splunk** and **Dynatrace** for critical batch processes, reducing incident detection time by **40%**.

Customer Onboarding Playbook for an ML Feature Store

- Worked directly with two pilot enterprise customers to design and deliver a guided onboarding flow for an internal ML feature store, including SDK examples and debug tooling.
- Developed a Python CLI tool to validate customer feature definitions against the platform schema before submission, catching approximately **70%** of schema errors at write time.
- Ran two follow-up workshops with customer data teams to upskill their internal engineers on integrating with the feature store.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
