PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and executed comprehensive test plans, test cases, and traceability matrices for new features and defect resolutions within an Agile framework, ensuring alignment with product requirements.
- Authored and maintained automated tests for **REST APIs** and **data-validation workflows**, integrating them into **CI/CD pipelines** to enable continuous testing and quality gates.
- Executed manual functional, regression, integration, and exploratory testing for multi-tiered, data-driven applications processing large data volumes, identifying and documenting defects.
- Defined and tracked key quality metrics, including defect counts, severity levels, test execution progress, and release status, providing clear reports to development and product teams.
- Performed root-cause analysis on identified issues, collaborating with development teams to implement preventive quality improvements and enhance overall software reliability.
- Partnered with customer support teams to effectively reproduce, troubleshoot, and resolve customer-reported issues, ensuring timely and accurate defect resolution.
- Implemented AI tools such as **Copilot** for test case generation and **Gemini** for defect analysis, improving QA productivity by an estimated **15%** through enhanced test automation and requirement review.

SKILLS

Testing Tools – Playwright, Selenium, Robot Framework, Postman, Zephyr, Jira

CI/CD – GitHub Actions, Jenkins, Azure DevOps, GitLab CI/CD

Programming Languages – Java, Python, C#

Databases – SQL, PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, UAT, Regression Testing, Integration Testing, Exploratory Testing

AI Tools – Copilot, Cursor, Gemini, ChatGPT, Claude

Web Technologies – REST APIs

PROJECTS

Automated API and Data Validation Framework

- Developed an automated testing framework using **Python** and **Postman** to validate **REST APIs** and complex **data-validation workflows**, covering over 300 API endpoints.
- Integrated the automated test suite into a **Jenkins CI/CD pipeline**, enabling daily execution and providing immediate feedback on build quality and API stability.
- Designed and implemented SQL queries to validate data integrity across multiple relational databases, ensuring consistency for critical business operations.

Enterprise Application Test Automation Suite

- Built a comprehensive test automation suite using **Selenium** and **Java** to cover critical user journeys within an enterprise application, improving regression testing efficiency.
- Collaborated with the product team to define test scope and acceptance criteria, ensuring test coverage for new features and defect fixes.
- Managed defects and tracked resolution progress using **Jira**, providing detailed reports on test execution status and product quality to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
