PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the day-to-day operations and reliability of multiple communication channels, including **IP telephony**, **SMS messaging**, and **WhatsApp Business API**, ensuring consistent service delivery for enterprise clients.
- Configured and troubleshot **telephony routing logic** for inbound and outbound call flows, encompassing features like voicemail, business hours schedules, and call transfers, directly impacting customer interaction efficiency.
- Administered and maintained telecommunication components integrated with the CRM, performing log analysis, troubleshooting issues, and modifying communication templates to support business needs.
- Drove resolution of high-priority service disruptions by investigating issues, coordinating with **telecom vendors** like Twilio and Vonage, and managing technical escalations.
- Developed and maintained **API integrations** and webhooks to connect disparate communication systems, enhancing data flow and enabling AI-powered communication workflows with development partners.
- Automated repetitive internal support processes related to communication channels and softphone issues through scripting and tooling, reducing manual intervention by approximately **30%**.
- Collaborated with QA teams on acceptance testing and functional validation of new telecommunication features, ensuring seamless integration and performance across various channels.

SKILLS

Telephony & Messaging – IP Telephony, SIP, VoIP, SMS/RCS, WhatsApp Business API (WABA), Twilio, Vonage, Voximplant, Call Routing, Voicemail, Call Transfers, CLI Logic, Number Porting

Integrations & APIs – APIs, Webhooks, WebSockets, JSON, System Integrations, CRM Integrations

Operations & Support – Incident Management, Troubleshooting, Technical Escalations, Vendor Management, Service Health Monitoring, Ticket Management, Log Analysis, Change Management

Data Analysis & Automation – SQL, Spreadsheets, Python Scripting, Automation Tooling, AI-assisted Workflows

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux Shell Scripting

PROJECTS

Communication Channel Integration Framework (HCL Technologies)

- Designed and implemented a Python-based framework for integrating various enterprise communication channels, including SMS and email gateways, into a unified dashboard.
- Developed RESTful APIs using **Java Spring Boot** to manage message queues and status updates, processing an average of **1,500 messages** per hour during peak loads.
- Integrated the framework with internal monitoring tools like **Splunk** for real-time performance tracking and alerting on delivery failures or delays.

Automated Customer Onboarding for Communications Platform

- Built a Python CLI tool to automate the initial setup and configuration for new enterprise customers integrating with a communications service.
- Streamlined the process of provisioning phone numbers and setting up basic routing rules, reducing manual configuration time by **45%** for the customer onboarding team.
- Developed documentation and ran initial walkthrough sessions for two pilot customer teams, enabling them to self-manage basic communication channel settings post-onboarding.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
