PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **cloud-scale directory services** to manage identities and entitlements across a global e-commerce platform, improving data consistency by **18%**.
- Developed **RESTful APIs and microservices** in Java Spring Boot for secure, low-latency access decisions, handling approximately **5,000 requests per second** during peak hours.
- Contributed to the development of **policy engines** supporting fine-grained authorization models, including RBAC and ABAC, to enforce access controls.
- Wrote production-ready code with comprehensive unit tests and integrated with **CI/CD pipelines** using Jenkins and Git for automated deployments.
- Participated in **troubleshooting production issues** for enterprise applications, identifying root causes and implementing fixes to enhance service reliability.
- Collaborated with cross-functional teams including Identity and Security to deliver scalable and secure solutions for identity management.
- Containerized backend services using **Docker** and deployed them to a **Kubernetes** cluster, managing configurations and resource allocation.

SKILLS

Languages – Java, Python, SQL, Bash

Frameworks & Libraries – Spring Boot, Hibernate, JUnit, Mockito, pandas, NumPy

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle, NoSQL

Tools & Technologies – Docker, Kubernetes, Jenkins, Git, Jira, Splunk, Dynatrace

Concepts – Distributed Systems, Microservices, REST APIs, CI/CD, IAM, RBAC, ABAC, Agile Methodologies

PROJECTS

Distributed Identity Management System (HCL Technologies)

- Engineered a distributed identity management system using **Java Spring Boot** and **PostgreSQL** to handle user authentication and authorization for enterprise applications.
- Implemented RESTful APIs for querying user entitlements and managing access policies, reducing average response times by **30%**.
- Developed automated tests using **JUnit** to ensure the reliability and correctness of the identity services, achieving **90% code coverage**.

Cloud-Native Authorization Service

- Designed and built a scalable authorization service using **Python** and **FastAPI**, deployed on **AWS Lambda** and managed via **Docker**.
- Integrated the service with a **PostgreSQL** database for storing authorization policies and user roles, supporting over **1,000 policy lookups per minute**.
- Wrote detailed documentation and provided support for integrating the service into downstream applications, assisting **three development teams**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
