HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed extensive datasets for the data science team, performing data preprocessing and refinement for **risk analytics** in banking and finance contexts.
- Applied **machine learning** and **data mining** methods to derive actionable insights from large datasets, including identifying structures within **Excel interface** data.
- Developed and executed **scientific tests**, optimizing model performance by refining parameters for predictive accuracy in practical business scenarios.
- Constructed **machine learning pipelines** for applications across commerce and finance domains, collaborating with a multidisciplinary team to ensure seamless integration.
- Engaged with internal stakeholders to comprehend business data, formulating hypotheses and evaluating strategies using statistical methods such as **T-tests**.
- Acquired and applied advanced analytical techniques using tools like **Tableau** to extract meaningful patterns and trends from complex data.
- Created comprehensive reports and presentations, effectively conveying complex **data analysis methodologies** and findings to both technical and non-technical audiences.

SKILLS

Data Analysis – Data Management, Data Analysis, Data Modeling, Exploratory Data Analysis (EDA), Risk Analytics, Statistical Analysis

Programming Languages – Python, R

Machine Learning & Data Mining – Machine Learning, Data Mining, Model Optimization, Scientific Tests, Data Preprocessing, Predictive Modeling

Data Visualization & BI Tools – Tableau, Power BI, Excel

Databases & Data Warehousing – SQL, NoSQL, Data Warehousing, ETL

Methodologies & Concepts – Agile, Scrum, Hypothesis Testing, T-tests, Business Intelligence

PROJECTS

Financial Risk Analysis with ML Pipelines

- Developed Python-based pipelines for **Exploratory Data Analysis (EDA)** on financial transaction data, identifying key risk indicators.
- Applied **scikit-learn** to train and evaluate predictive models for risk assessment, achieving approximately **0.84 AUC** on a simulated dataset.
- Constructed and deployed a basic **machine learning pipeline** for feature engineering and model scoring, integrated with a no-code database interface.

Interactive Tableau Dashboards for Business Insights

- Designed and implemented interactive **Tableau** dashboards to visualize key performance indicators and trends for business stakeholders.
- Extracted, transformed, and loaded data using **Power Query** and SQL, ensuring data integrity for reporting purposes.
- Presented data-driven findings and strategic recommendations based on dashboard analysis, facilitating informed decision-making for an 8-person analytics team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
