HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Assessed current **Microsoft Defender for Cloud** configuration and proposed enhancements for improved security posture, aligning with organizational requirements and industry best practices.
- Analyzed and prioritized **Microsoft Defender for Cloud CSPM** recommendations based on risk, business impact, and remediation complexity to identify and address critical security gaps.
- Collaborated with cross-functional teams, including IAM and Threat Detection & Response, to remediate identified Azure security misconfigurations and attack surface risks.
- Supported the definition and implementation of security governance and exception management processes for the **Azure platform**, ensuring alignment with established architectural standards.
- Developed and maintained comprehensive documentation for **Microsoft Defender for Cloud** configuration, operational procedures, and remediation processes to facilitate knowledge transfer.
- Worked with the Threat & Vulnerability Management team to design and implement effective cloud vulnerability management processes for Azure environments.
- Containerized Java Spring Boot applications using **Docker** and managed deployments on **AWS EC2** instances, ensuring reliable operation within production environments.

SKILLS

Cloud Security – Microsoft Defender for Cloud, CSPM, Azure Security, Cloud Security Posture Management, Vulnerability Management, Attack Surface Assessment

Cloud Platforms – Microsoft Azure, AWS (EC2, S3, Lambda, CloudWatch)

Security Operations – Threat Detection & Response (TDR), Threat & Vulnerability Management, Incident Response, Security Governance, RBAC, PIM

Development & Operations – Java, Spring Boot, Python, Docker, CI/CD, Jenkins, Git, Linux

Databases & Scripting – SQL (PostgreSQL, MySQL, Oracle), Shell Scripting

Tools & Methodologies – Jira, Confluence, Agile, Change Management

PROJECTS

Azure Security Posture Enhancement Project

- Assessed and documented existing **Azure security configurations**, identifying areas for improvement in line with industry best practices and organizational policies.
- Analyzed findings from **Microsoft Defender for Cloud**, prioritizing remediation efforts based on identified risks and potential business impact.
- Developed technical guidance and operational procedures for ongoing cloud security posture management and vulnerability remediation within the Azure environment.

Java Application Security Hardening (HCL Technologies)

- Enhanced security controls for a **Java Spring Boot** application supporting financial services operations, focusing on secure API development and data protection.
- Implemented role-based access controls and security logging mechanisms within the application's backend services, processing approximately **2,500 transaction events** per hour.
- Participated in code reviews and security testing cycles to identify and address potential vulnerabilities, contributing to a more secure production environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
