HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Documented and analyzed existing **OBIEE** and **ODI** processes, mapping end-to-end data flows from source to target.
- Developed comprehensive technical runbooks and operational recovery documentation for complex data warehouse environments, capturing knowledge from Subject Matter Experts.
- Led knowledge-transfer workshops and technical walkthroughs for cross-functional teams, producing clear training materials and system process maps.
- Performed advanced **PL/SQL** code reviews and data lineage analysis to identify technical knowledge gaps and single points of failure within the data infrastructure.
- Wrote and optimized **Python** scripts to automate data extraction, transformation, and loading (ETL) processes, enhancing efficiency in data pipeline management.
- Supported incident resolution and ensured operational continuity by troubleshooting issues within a large-scale public-sector data environment.
- Containerized data processing applications using **Docker** and deployed them to **Azure Kubernetes Service (AKS)**, managing configurations and resource allocation.

SKILLS

Data Warehousing & ETL – OBIEE, ODI, Azure Synapse, Microsoft Fabric, Data Warehousing, ETL

Database & Scripting – PL/SQL, Python, SQL

Cloud Platforms – Azure, AKS

Data Governance & Documentation – Purview, Technical Documentation, Knowledge Transfer, Runbooks, Process Mapping

Methodologies & Tools – Agile, Scrum, Jenkins, Git, Jira, Confluence

PROJECTS

OBIEE & ODI Process Analysis for Public Sector Data Environment

- Analyzed and documented intricate **OBIEE** dashboards and **ODI** mappings, detailing data transformations and dependencies for a large public-sector organization.
- Mapped complex source-to-target data flows across multiple systems, creating detailed lineage diagrams to support technical knowledge transfer initiatives.
- Developed operational procedures and recovery documentation for critical data processes, enhancing system resilience and reducing potential downtime.

Python-Based ETL Automation for Data Warehouse Integration

- Engineered and refined **Python** scripts to automate ETL workflows for a complex data warehouse, processing approximately 50,000 records daily.
- Integrated data from disparate sources into a central repository using custom Python scripts and **SQL**, improving data consistency for reporting.
- Implemented error handling and logging mechanisms within the Python ETL scripts, reducing data processing failures by 15%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
